

# TRAUMA HEALING 2023

## *Advanced Equipping Session*

### WHO SHOULD ATTEND?

Participants must have attended an initial equipping session and also co-led or led at least two healing groups (or some equivalent activity) and submitted their reports.

### ABOUT THE SESSION

This session, the second of two seminars, continues the equipping process for facilitators in Bible-based Trauma Healing using the book *Healing the Wounds of Trauma: How the Church Can Help* and its associated programme model. This proven approach uses applied Scripture and best mental health principles to address spiritual and emotional wounds caused by trauma of war, ethnic conflicts, natural disasters, car accidents, abuse, and similar events. The book has been translated and taught in over 100 countries with more than 184 language groups in Africa, Asia, the Pacific and the Americas.

The advanced session hones the skills acquired at the initial session and during the practicum. By the end of this session, trainees should be better able to solve programme issues arising in trauma healing as they carry out their ministries. They should understand the materials completely and clearly and be able to teach in a participatory way. Participants who have the necessary competencies are certified as training facilitators or healing group facilitators at the end of the advanced session.

## **Advanced Trauma Healing:**

Re-Authoring Life Narratives After Trauma: A Holistic Narrative Model of Care Charles B. Manda, 2019-12-12 Re-authoring Life Narratives after Trauma is an interdisciplinary specialist resource for traumatic stress researchers practitioners and frontline workers who focus their research and work on communities from diverse religious backgrounds that are confronted with trauma death illness and other existential crises This book aims to argue that the biopsychosocial approach is limited in scope when it comes to reaching a holistic model of assessing and treating individuals and communities that are exposed to trauma The holistic model must integrate an understanding of and respect for the many forms of religion and spirituality that clients might have Pargament 2011 It will not only bring a spiritual perspective into the psychotherapeutic dialogue but it will also assist in dealing with the different demands in pastoral ministry as related to clinical and post traumatic settings The book makes several contributions to scholarship in the disciplines of although not limited to traumatic stress studies pastoral care and counselling psychology and psychiatry Firstly the book brings spirituality into the psychotherapeutic dialogue traditionally religious and spiritual topics have not been a welcome part of the psychotherapeutic dialogue Secondly it underscores the significance of documenting literary narratives as a means of healing trauma writing about our traumas enables us to express things that cannot be conveyed in words and to bring to light what has been suppressed and imagine new possibilities of living meaningfully in a changed world Thirdly it proposes an extension to the five stage model of trauma and recovery coined by Judith Herman
