Baruch College. Human Services Management Project,1980     *Effective Leadership Skills* Chris Fife,2014-02-08 Leadership is one of the most important skills in life today We all face leadership situations in our lives and unfortunately many of us are not ready for them We are leaders when we become parents to our children we are leaders many times at our jobs we sometimes become leaders at our churches at our communities and among our friends If we shy away from our responsibilities as leaders it only hurts us and those around us It is critical that we are able to learn to be able to master leadership skills in order to be able to face the challenges of our lives Children need leadership training more today than at any other time in history so that they can deal with the challenges 21st century It is the lack of leadership skills that has lead to violence in schools unqualified workers and children unprepared for the real world Most children lack basic leadership skills and have a hard time getting and holding on to a job Many of them struggle with healthy relationships and do not have the confidence or the skills to be successful Effective Leadership Skills Student Manual is designed to have students start practicing leadership skills It gives them basic knowledge about leadership skills and encourages them to start practicing these skills The manual does not replace the experience necessary for students to become leaders It just sets them in the right direction Students need to put forth the effort to develop the skills and seek out leadership opportunities on their own The manual follows the lessons in the teacher manual and compliments what is taught in the lessons It is not to replace the lessons or activities suggested in the teacher manual It gives background information and suggestions for students to

take in order to be able to master the skills Students need to actively participate in each lesson and be willing to take part in leadership positions throughout the course The manual is written for secondary and college level students It can be adapted for younger students with supplementary materials Younger students can create their own student manual as a leadership activity
