Gifted hands is the story of the world famous Pediatric Neurosurgeon, Ben Carson. The Benjamin Carson's journey from the bottom of his fifth grade class to his current position as a director of pediatric Neurosurgery at John Hopkins Hospital. In his autobiography Carson's explains how a strong faith in God, and the help of an extremely strong mother, he was able to overcome not only the doubts of his classmates and teachers but also the doubts of his own intelligence, and turn his life around.

Carson's story begins in Detroit, Michigan, at the age of eight with the departure of his father, leaving young Ben, his brother Curtis, and his mother to fend themselves. Young Benjamin immediately began to notice changes in what once had been a financially stable family, and that his family would now be forced to struggle to get by. With only a third grade education Carson's mother was forced to take on two, sometimes three jobs to provide for her two boys. Benjamin and his brother fell further and further behind in school. In fifth grade, Carson was at the bottom of his class. His classmates call him "Dummy" and he developed a violent, uncontrollable temper.

When Mrs. Carson saw Benjamin's failing grades, she determined to turn her son's life around. She sharply limited the boys' television watching and refused to let them outside to play until they had finished their homework each day. She required them to read two library books a week and to give her written reports on their reading even though, with her own poor education, she could barely read what had they written.

A turning point in his life when Carson was astonished by identifying rock samples. His teacher had brought it to class. He recognized them from one of the books he had read. "It was at that moment I realized that I wasn't a stupid," he recalled later. After he found this new source of confidence, Ben developed a love for reading and a hunger for knowledge, he began to read voraciously on all subjects. Carson
