Hrebicek,2011-06-27 From the reviews An excellent reference on undergraduate mathematical computing American
Mathematical Monthly the book is worth buying if you want guidance in applying Maple and MATLAB to problems in the
workplace Computing Reviews The presentation is unique and extremely interesting I was thrilled to read this text and to
learn the powerful problem solving skills presented by these authors I recommend the text highly as a learning experience
not only to engineering students but also to anyone interested in computation Mathematics of Computation For this edition
four chapters have been added Some of the chapters of the previous editions were revised using new possibilities offered by
Maple and MATLAB Some interesting web pages related to Maple and MATLAB have been added in an appendix Moreover
the editors have created a web page www.SolvingProblems.inf.ethz.ch where all Maple and MATLAB programs are available

leaders need to reap the rewards of education s most exciting new trend Flipping classrooms using class time for hands on
learning and off loading the lecture portion of lessons to teacher created videos or other technology presentations assigned
as homework is taking schools by storm But like all hot trends it is important to apply this innovation intelligently especially
at the system wide level This book makes a persuasive case to leaders for the potential benefits of flipping Backed by
powerful data and compelling anecdotes this book covers Data on positive student outcomes in terms of achievement and
motivation How flipping gives teachers more time to work with students one on one and encourage peer learning Ways
flipping can benefit teacher learning and collaboration Why flipping encourages students to take responsibility for their own
learning How flipping engages students in 21st century skills Ways flipping is budget and resource friendly With this book

you can take a major step towards the future of education utilizing technology and advanced understanding of how students learn best Flipped classrooms empower teachers to engage students in deeper learning This book gives readers ten reasons for joining forces to make this possibility a reality Tom Carroll President National Commission on Teaching and America's Future I highly recommend this book for any educator interested in flipping the classroom to reinvent the learning process The stories show how flipping is energizing teachers and students with powerful results Lisa Schmucki Founder and CEO edweb.net
