**Michael N. DeMers**

## **Gis Beginners Juan Spencer:**

Global Positioning System John Spencer, Brian G. Frizzelle, Philip H. Page, John B. Vogler, 2008-04-30 Global Positioning System is the first book to guide social scientists with little or no mapping or GPS experience through the process of collecting field data from start to finish Takes readers step by step through the key stages of a GPS fieldwork project Explains complex background topics in clear easy to understand language Provides simple guidelines for GPS equipment selection Provides practical solutions for real GPS data collection issues Offers a concise guide to using GPS collected data within geographic information systems

**Crime Mapping and Spatial Data Analysis using R** Juan Medina Ariza, Reka Solymosi, 2023-04-27 Crime mapping and analysis sit at the intersection of geocomputation data visualisation and cartography spatial statistics environmental criminology and crime analysis This book brings together relevant knowledge from these fields into a practical hands on guide providing a useful introduction and reference material for topics in crime mapping the geography of crime environmental criminology and crime analysis It can be used by students practitioners and academics alike whether to develop a university course to support further training and development or to hone skills in self teaching R and crime mapping and spatial data analysis It is not an advanced statistics textbook but rather an applied guide and later useful reference books intended to be read and for readers to practice the learnings from each chapter in sequence In the first part of this volume we introduce key concepts for geographic analysis and representation and provide the reader with the foundations needed to visualise spatial crime data We then introduce a series of tools to study spatial homogeneity and dependence A key focus in this section is how to visualise and detect local clusters of crime and repeat victimisation The final chapters introduce the use of basic spatial models which account for the distribution of crime across space In terms of spatial data analysis the focus of the book is on spatial point pattern analysis and lattice or area data analysis
