Globalization And Postcolonialism Hegemony And Resistance In The Twenty First Century:

Globalization and Postcolonialism Sankaran Krishna, 2009 Globalization has become a widely used buzzword yet popular discussions often miss its deeper realities This book offers the first clear explanation of the impact of colonialist legacies in a globalized world in an era defined by the War on Terror Sankaran Krishna explores the history of the relationship between Western dominance and the forms of resistance that have emerged to challenge it Moving beyond the simple formulation of They hate us because we are rich we are free and they are crazy he asks What have we done that might generate such animosity What face has the United States presented to the developing world over time Krishna argues that we live on an interrelated globe that history matters a great deal in constructing contemporary realities and that others create stories or narratives about the world based on their experiences just as we do based on ours He contends that the interactions between the West and the non West have not been politically innocent economically egalitarian or culturally benign in their consequences Presenting a lucid exploration of the intertwined histories of both globalization and postcolonialism this book uses compelling real world examples to make sense of this crucial relationship *Global Politics in the 21st Century* Robert J. Jackson, 2013-09-16 Objective critical optimistic and with a global focus this textbook combines international relations theory history up to date research and current affairs to give the student a comprehensive unbiased understanding of international politics It integrates theory and traditional approaches with globalization and research on newer topics such as terrorism the rise of new economic superpowers and the impact of global communications and social networking to offer the ideal breadth and depth of coverage for a one semester undergraduate course Student learning is supported and enhanced by box features and Close Up sections with context and further information Critical Case Studies that highlight controversial and complex current affairs topics and show how the world works in practice and questions to stimulate discussion review key concepts and encourage further study It brilliantly demonstrates the significance and interconnectiveness of globalization and new security challenges in the 21st century and illuminates the role of leadership in transnational crises

The Postcolonial Bildungsroman Arnab Dutta Roy, Paul Ugor, 2025-11-06 Offering a fresh comparative lens this volume demonstrates how postcolonial writers have transformed the Bildungsroman from an eighteenth century European genre meant to explore local themes around childhood development into one of the most cosmopolitan literary mediums for communicating overlapping concerns about global modernity Chapters examine identity sexuality human rights the climate crisis neoliberal globalization and a host of other issues in work from a wide range of postcolonial locations across Asia Europe Africa the Americas Australia and New Zealand Forging productive engagements between narratology and genre theory the volume documents the aesthetic and thematic shifts that have accompanied the Bildungsroman over time particularly in the context of anticolonial liberationist and self determination struggles from the mid twentieth century onwards in the Global South With essays from multiple continents The Postcolonial Bildungsroman makes a crucial

intervention to the existing scholarship on this influential genre and a unique contribution to the study of world literature

Postcolonial Governmentalities Terri-Anne Teo,, Elisa Wynne-Hughes,2020-02-18 This edited volume asks how governmentality and postcolonial approaches can be brought together to help us better understand specific sites and practices of contemporary postcolonial governance The framework approach was inspired by the recent use of governmentality approaches that emphasize how governance functions not solely through states but through multiple tactics and means that regulate the conduct of individuals and institutions through both freedom and constraint A postcolonial approach to governance exposes the role of postcolonial sites and practices in shaping governance and the inequalities embedded within it insofar as standards of conduct determine which subjects are privileged and excluded Postcolonial perspectives show how governance can be both productive and repressive functioning to impose a fixed code of conduct that objectifies gendered racialized sexualized others as part of its project of improvement In discussing governance we must also consider how power is negotiated and challenged through forms of resistance and counter conduct This volume argues that we need to incorporate postcolonial theories and carefully examine postcolonial practices and sites to understand how contemporary governance shapes various transnational inequalities and social divisions The authors in this edited volume illustrate the value of postcolonial governance as a conceptual framework through empirical examples from Asia Australia Africa and Europe These cases unpack practices of governance operating within complex political landscapes

(Anti) Narcissisms and (anti) Capitalisms Mark Malisa,2010 What if Mahatma Gandhi Malcolm X Nelson Mandela and Jurgen Habermas had a conversation on what it means to be a human being This book synthesizes the depiction of human nature in relation to anti capitalisms and anti narcissisms in the work of Mahatma Gandhi Moksha Malcolm X Islam Nelson Mandela Ubuntu and Jurgen Habermas Communicative Action Critical Theory Understandings of what it means to be a human being and the purpose of life vary from one philosophy to another and yet have a bearing on contemporary issues The reader is invited to assess the philosophies with regard to conceptually and life affirming philosophies of human nature when placed in the context of anti narcissisms and anti capitalisms Also examined are the theories of education in the works Mahatma Gandhi Malcolm X Nelson Mandela and Jurgen Habermas To teach toward a fuller and meaningful humanity requires an analysis and understanding of the many traditions that contribute to humankind including the non western The classroom offers unheralded opportunities for students and educators to be knowledgeable about different cultures peoples and ways of being Anti Narcissisms and Anti Capitalisms will be of interest to researchers educators students peace activists philosophers of education and those working in the humanities Mark Malisa Formerly of
