The photos are connected with the topic of school. Both photos show students in class.

In the first photo I imagine that they're about 13 years old. It looks like a science lesson and judging by the students' expressions, I'd say that they are enjoying their lesson. They look interested and it looks as though they are working hard. Most of them are looking at the experiment and working together. They are all wearing uniform – it's quite an old-fashioned-looking uniform, so I would guess that it's a private school, but it could be a state school. It's hard to say.

Transcript

The second photo also shows students in a classroom. I reckon they are about 17 years old. It's a mixed class of boys and girls. It's difficult to tell what kind of lesson they're in. Their teacher is handing a paper to one student. It could be that they're in a maths lesson. These students aren't wearing uniform. It looks as if one of them is asleep. It's clear that the girl in the front desk isn't interested in the lesson or perhaps she doesn't understand what she has to do.

Office,1975 Life Goes Both Ways Willy Vil,2024-08-05 The story Life Goes Both Ways is a true story that is about a twenty
year old who just finished high school from abroad and moved to the USA without his mom dad and friends Due to the speech
impediment life was too difficult for him When he left he made lots of commitments to his family In the start he felt that
everything was going to be easy to the point where he was going to maintain a reasonable life right away Shortly he
discovered that things didn t work like that in the United States of America Some types of items ought to be done sooner
before you could get yourself situated At foremost he was living with his brother J but things didn t work out nicely between
the two of them In a brief time in the country he was out of his brother s home with no place to stay Luckily an elder
companion of his promised him to stay in his place until he gets his life in order Therefore he jumped back and forth from
position to position until he chose to go to school to construct some modifications in his life He attempted to go to school but
it didn t work out for him It wasn t until he met a professor who used to teach French at a university in Paris who showed him
some methods about how to write essays in the English language Ever since he observed he was doing very well in school He

managed to get his associates in business entrepreneurship but then quit going to college. After a few years he met his wife and they had three boys together and bought a house. Due to union obligations and taking care of the children he couldn't afford to go back to school. His life was focused on the children's education and work. After the children graduated from college and had successful careers he decided to go back to school to finish what he started. After fifty-plus years during COVID time he went back to school and managed to graduate with honors. He went to Purdue University Global where he got himself a degree in business administration. He was an exceptional student too. Information in the book showcased that life went both ways. At certain times in life there would be no way out; other times things would be floating smoothly. At first the future didn't appear very good for the young man in this country. With hard work, commitment, and the support of a few good people he managed to adjust certain things and at last create an exorbitant life for himself. Things were challenging at the beginning but he turned a bunch of negative stuff into positive ones. Nevertheless, I think that we need good tutors to teach us about the facts of life. In that case, our parents are the ideal ones. After all, I believe very strongly that we should listen to our mom and dad more often because their words contain valuable lessons to teach us.
