Learning Photography David Edwards, 2020-07-26 Did you buy a fancy new camera but your photos still aren't that great? Are you shooting in auto mode because you don't know what all the buttons are for? Then *Learning Photography* is the kind of guide you're looking for. Assuming you have no knowledge about photography, this guide's step-by-step format allows you to quickly learn the most important principles of photography as well as how to unlock your camera by shooting in manual mode. Learn how ISO works, why the aperture is so important when to adjust your shutter speed, and understand how depth of field works. Then combine everything together with the right type of lens and shoot. Step out of your comfort zone by shooting RAW to get every bit of precious information from your photos so that you can have full control over them during post processing. *Learning Photography* is an up-to-date guide that will enable you to unlock your full potential. Walk away from crude, badly composed selfies and impress everyone with your art.

The Complete Photo Manual (Popular Photography) Editors of Popular Photography Magazine, 2012-11-13 Photography books tend to be long, technical, and full of complicated jargon. For the amateur or pro who just wants to get quick, hitting tips and loads of inspiration, this is the book that does the job. In 355 handy, easy-to-grasp hints, this book gives you what you need to know to grasp the basics of lighting, composition, gear, working with models, and much, much more. Pro tips make this much more than a beginner's guide. Taking amazing pictures is getting easier and easier with the advances in digital photography, and *The Complete Photo Manual* is here to help you take full advantage. Organized into three useful chapters, *Gear* teaches you to see the world as a photographer does and shoot in the moment to capture great shots as they happen, and then tweak your images in photo processing software for next-level effects. From the subtle adjusting of the color in a picture to create a different mood to the artistic compositions merging several photos to dramatic effect to the downright amazing how to photograph yourself levitating, it's easier than you think. *The Complete Photo Manual* opens up a whole world of photographic possibility. Setups and techniques are described in detail with easy-to-understand illustrations and diagrams, and a wealth of beautifully inspirational photography. Beginners will learn ways to quickly move into new realms of expertise, and even old pros will pick up some new tricks. Anyone who has ever looked at an amazing composition or a skillful composite and said, "How did they do that?" will find this book irresistible.
