Scientific Essay from the year 2011 in the subject English Language and Literature Studies Linguistics University of Debrecen Regnum M Educational Co University of Debrecen course English Language and Literature Studies Linguistics language English abstract It is obvious that second language acquisition is a very inevitable phenomenon in language learning procedure hence there is a whole library of books dealing with SLA Contemporary findings Pl h 2010 have also showed that LA is one of the most important processes in our life determining the whole procedure of language learning not only in the case of second language but also in the case of our mother tongue Moreover the whole process includes memorizing things conceptualization connecting cognitive information and eventual accuracy in the use of language Interestingly enough contemporary findings have also proved Deb K Roy et al 2002 that first language acquisition begins even before the birth of the child which means that the adaptation to the new circumstances and verbal communication starts in the mother s uterus These new researches and our devotion to medical disciplines¹ have made us compose an essay on the biological factors of Second Language Acquisition No doubt biological and neurobiological factors are very severely important parts of LA procedures however they are not really put into the focus of linguistic experts The reason for this might be traced in several things there are some Birnbaum 1996 who think that biological factors are not so important since linguistic experts are supposed to be dealing with the technical and mechanical factors of language acquisition e g how we learn the things what methodology or approaches we need to master the language properly etc Others note Clark 1997 that even when biological factors are very determining linguistics are obliged to stick to the main stream of language acquisition which is beyond any questions not a biological but a psychological factor However there are a lot more others who support biological factors and dealing with neurobiology deeply in contemporary writings These opinions all encouraged us to write an essay on biological factors emphasizing that biology and neurobiology are very important in Language Acquisition Furthermore in accordance with the new scientific findings and surveys we were really given the suggestion that there is a great need for dealing and utilizing neurobiology in the frame of linguistics The Teaching of High School Subjects William Alfred Millis,Mrs. Harriet Harding Millis,Mrs Harriet Harding Millis,1925 Using Music to Enhance Student Learning Jana R.
