Distributed Architecture For The Object Oriented Method For Interoperability:

Distributed Architecture for the Object-Oriented Method for Interoperability George M. Lawler, 2003-03-01 The Department of Defense DoD is both challenged by the quest for interoperability and capable of the bottom up development of a solution The predominant method for achieving interoperability is the development of an intermediate representation that provides a common integration language or data model An example is Young s Object Oriented Method for Interoperability OOMI which produces a Federation Interoperability Object Model FIOM for the resolution of heterogeneities in representation and view of a real world entity An FIOM generates a standard for interoperability by associating the nonstandard component system data models into an extensible lattice which captures translations that resolve data modeling differences

The State of the Art in Intrusion Prevention and Detection Al-Sakib Khan Pathan, 2014-01-29 The State of the Art in Intrusion Prevention and Detection analyzes the latest trends and issues surrounding intrusion detection systems in computer networks especially in communications networks Its broad scope of coverage includes wired wireless and mobile networks next generation converged networks and intrusion in social networks Presenting cutting edge research the book presents novel schemes for intrusion detection and prevention It discusses tracing back mobile attackers secure routing with intrusion prevention anomaly detection and AI based techniques It also includes information on physical intrusion in wired and wireless networks and agent based intrusion surveillance detection and prevention The book contains 19 chapters written by experts from 12 different countries that provide a truly global perspective The text begins by examining traffic analysis and management for intrusion detection systems It explores honeypots honeynets network traffic analysis and the basics of outlier detection It talks about different kinds of IDSs for different infrastructures and considers new and emerging technologies such as smart grids cyber physical systems cloud computing and hardware techniques for high performance intrusion detection The book covers artificial intelligence related intrusion detection techniques and explores intrusion tackling mechanisms for various wireless systems and networks including wireless sensor networks WiFi and wireless automation systems Containing some chapters written in a tutorial style this book is an ideal reference for graduate students professionals and researchers working in the field of computer and network security Systems

Development Methods for the Next Century W. Gregory Wojtkowski, Wita Wojtkowski, Stanislaw Wrycza, Armi Krajowej, Jozse Zupancic, 2012-12-06 This book is a result of the ISD 97 Sixth International Conference on Information Systems Development Methods and Tools Theory and Practice held August 11 14 1997 in Boise Idaho USA The purpose of this Conference was to address the issues facing academia and industry when specifying developing managing and improving software systems The selection of papers was carried out by the International Program Committee All papers were reviewed in advance by at least three people Papers were judged according to their originality relevance and presentation quality All papers were judged purely on their own merits independently of other submissions This year s Information Systems Development Conference ISD

97 is the first ISD conference being held in the US ISD was brought into existence almost ten years ago It continues the fine tradition of the first Polish Scandinavian Seminar on Current Trends in Information Systems Development Methodologies held in Gdansk Poland in 1988 ISD 98 will be held in Bled Slovenia ISD 97 consists not only of the technical program represented in these proceedings but also tutorials on improved software testing and end user information systems and workshop on sharing knowledge within international high technology industries that are intended for both the research and business communities We would like to thank the authors of papers accepted for ISD 97 who all made gallant efforts to provide me with electronic copies of their manuscripts conforming to common guidelines We thank them for thoughtfully responding to reviewers comments and carefully preparing their final contributions
