modeling and analysis of systems in which qualitative and quantitative aspects are studied from an integrated perspective We are convinced that the further worktowards the realization of this goal will be a growing source of inspiration and progress for both communities **Forthcoming Books** Rose Arny,2003 The British Library General Catalogue of Printed Books 1976 to 1982 British Library,1983 International Books in Print, 1995 Barbara Hopkinson,[Anonymus AC01401231],1995
