Esoteric Teachings Gnostics Frances Swiney:

Outsider Theory Jonathan Eburne, 2018-09-18 A vital and timely reminder that modern life owes as much to outlandish thinking as to dominant ideologies What do the Nag Hammadi library Dan Brown's The Da Vinci Code speculative feminist historiography Marcus Garvey's finances and maps drawn by asylum patients have in common Jonathan P Eburne explores this question as never before in Outsider Theory a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it might be to protect ourselves from bad ideas Outsider Theory shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution

Hidden Gospels Philip Jenkins, 2002-12-05 This incisive critique thoroughly and convincingly debunks the claims that recently discovered texts such as the Gospel of Thomas the Gospel of Mary and even the Dead Sea Scrolls undermine the historical validity of the New Testament Jenkins places the recent controversies surrounding the hidden gospels in a broad historical context and argues that far from being revolutionary such attempts to find an alternative Christianity date back at least to the Enlightenment By employing the appropriate scholarly and historical methodologies he demonstrates that the texts purported to represent pristine Christianity were in fact composed long after the canonical gospels found in the Bible Produced by obscure heretical movements these texts have attracted much media attention chiefly because they seem to support radical feminist and post modern positions in the modern church Indeed Jenkins shows how best selling books on the hidden gospels have been taken up by an uncritical drama hungry media as the basis for a social movement that could have powerful effects on the faith and practice of contemporary Christianity

The Esoteric Teachings of the Gnostics Frances Swiney, 2015-12-07 Though Gnosticism long preceded Christianity the Gnostics were the first Christians they accepted Christ in the full realization of the word his life not his death was the keynote of their doctrine and their practice

Thousands of years before the Egyptian Seers prognosticated the spiritual evolution of the soul in the seven stages of probation in the life beyond the grave They conceived of a mystical Christos a divine type of character that could only be attained through the soul's conflict with evil in the spiritual spheres of nebulous idealism The Gnostics welded the ancient mythos into mundane practicability They recognized the divine nature of the Universe the eternal progression of all things and of the human in particular Therefore it is easily conceivable that they were misunderstood maligned and discredited by the crude primitive minds of the Goth the Vandal and the Hun who had drunk too deeply of the draught of oblivion to remember their former phases of existence Swiney has much in common with modern scholars like Elaine Pagels or Elizabeth Schussler Fiorenza who attempt to restore the lost voices of the women of early Christianity The Esoteric Teachings of the Gnostics is an important book by Philip Jenkins Distinguished Professor of History Baylor University **The Theosophist**, 1911 **The Bookseller**, 1909 **Light**, 1909 The Publisher, 1909 **The Publishers' Circular and Booksellers' Record**, 1909 *Publishers' Circular and Booksellers' Record of British and Foreign Literature*, 1909 **The Hibbert Journal** Lawrence Pearsall Jacks, George Dawes Hicks, George Stephens Spinks, Lancelot Austin Garrard, H.
