

Thomas Aquinas on the Freedom of the Will

Thomas Aquinas on the Freedom of the Will(Q10a2 and Q13a6) Free will and predestination were issues that shook the early medieval world. By Thomas' time at the High Middle Ages, the influence of St. Augustine was still paramount in western thought, and hence, the question of the will and its capacities remained critical.

For both thinkers, the will was moved by necessity, but this necessity was only considered the highest Good itself, God, and the eventual Beatific Vision, a vision from which the will can not, of its own nature, turn away. Of course, this was agreed upon widely, but did not address the issue of the will and its relation to created, as opposed to uncreated, objects. Nevertheless, since the re-translation of Aristotle's ethical works by both the Muslims of Toledo and Albert the Great, the freedom of the will was again an important question, but now on a new basis. What makes Thomas different in this respect was that, as a theologian, he was dealing with the question of the will from a purely earthly and "scientific" point of view.

And it is this Aristotelian idea that makes Thomas' answers worth reading, for the will was now put on a new footing. The question hinges on the distinction between particular goods (whether rightly or wrongly seen as such) and the absolute Good. The latter is always an (the) end, which exists—it is not "chosen" per se—as an end a priori, while the earthly aspect of our existence concerns the search for appropriate means towards this end, or minimally, the end of happiness. This is the chief argument for the freedom of the will.

His imaginary interlocutor continues to make the claim, in differing forms, that: p1 The end of absolute goodness is never chosen, it acts upon the will necessarily (agreed to by all);p2 this is similar to the existence of a conclusion from its premises;p3 if one accepts the premises, one must accept the conclusion;p4 if one accepts the conclusion, one must accept the premises;c1 in a similar manner, the Goodness/Happiness pulls the will necessarily,c2 then the "premises," or the means to reach that Good, must also act upon the will necessarily. (Qx, 2a, obj 3) It is not that Thomas rejects this argument from analogy, but merely that it does not follow. Thomas provides several replies to this common medieval argument. The chief counter argument comes in Qxii, a6, reply: p1 what is possible is not necessary;p2 reason tends to favor whatever it takes as good (rightly or wrongly);p3 man necessarily wills happiness (agreed to by all);p4 but willing concerns means, never ends;p5 means are not perfect goods, only particular goods;c1 there, hence, is no necessity.

There are several issues at work here. Thomas makes a clear distinction between intellect and will. The intellect synthesizes sense data, while the will is acted upon by the conclusions of the intellect, this semi-Aristotelian schema is

is a comprehensive reference work that provides an exhaustive guide to scholarship on the perennial problem of free will

An Essay on the Doctrine of the Unreality of the World in the Advaita Georges Dandoy,1919 **Our Fate** John Martin Fischer,2015-12-01 Our Fate is a collection of John Martin Fischer's previously published articles on the relationship between God's foreknowledge and human freedom The book contains a new introductory essay that places all of the chapters in the book into a cohesive framework The introductory essay also provides some new views about the issues treated in the book including a bold and original account of God's foreknowledge of free actions in a causally indeterministic world The focus of the book is a powerful traditional argument for the incompatibility of God's foreknowledge and human freedom to do otherwise Fischer presents this argument in various forms and defends it against some of the most salient criticisms especially Ockhamism The incompatibilist's argument is driven by the fixity of the past and in particular the fixity of God's prior beliefs about our current behavior The author gives special attention to Ockhamism which contends that God's prior beliefs are not over and done with in the past and are thus not subject to the intuitive idea of the fixity of the past In the end Fischer defends the argument for the incompatibility of God's foreknowledge and human freedom to do otherwise but he further argues that this incompatibility need not entail the incompatibility of God's foreknowledge and human moral responsibility Thus through this collection of essays Fischer develops a semicompatibilist view the belief that God's foreknowledge is entirely compatible with human moral responsibility even if God's foreknowledge rules out freedom to do otherwise *Shelburne Essays* Paul Elmer More,1921 **Essays on Dante, being selections from**
