Erwachsene Reden Marco Hat Getan:

Relentless Progress Jack Zipes, 2013-02-01 Can fairy tales subvert consumerism Can fantasy and children's literature counter the homogenizing influence of globalization Can storytellers retain their authenticity in the age of consumerism These are some of the critical questions raised by Jack Zipes the celebrated scholar of fairy tales and children's literature In this book Zipes argues that despite a dangerous reconfiguration of children as consumers in the civilizing process children's literature fairy tales and storytelling possess a uniquely powerful even fantastic capacity to resist the relentless progress of negative trends in culture He also argues that these tales and stories may lose their power if they are too diluted by commercialism and merchandising Stories have been used for centuries as a way to teach children and adults how to see the world as well as their place within it In Relentless Progress Zipes looks at the surprising ways that stories have influenced people within contemporary culture and vice versa Among the many topics explored here are the dumbing down of books for children the marketing of childhood the changing shape of feminist fairy tales and why American and British children aren't exposed to more non western fairy tales From picture books to graphic novels from children's films to video games from Grimm's fairy tales to the multimedia Harry Potter phenomenon Zipes demonstrates that while children's stories have changed greatly in recent years much about these stories have remained the same despite their contemporary high tech repackaging Relentless Progress offers remarkable insight into why classic folklore and fairy tales should remain an important part of the lives of children in today's digital culture

Transdisciplinary Perspectives on Childhood in Contemporary Britain Sandra Dinter, Ralf Schneider, 2017-11-15 In the light of the complex demographic shifts associated with late modernity and the impetus of neo liberal politics childhood continues all the more to operate as a repository for the articulation of diverse social and cultural anxieties Since the Thatcher years juvenile delinquency child poverty and protection have been persistent issues in public discourse Simultaneously childhood has advanced as a popular subject in the arts as the wealth of current films and novels in this field indicates Focusing on the late twentieth and the early twenty first centuries this collection assembles contributions concerned with current political social and cultural dimensions of childhood in the United Kingdom The individual chapters written by internationally renowned experts from the social sciences and the humanities address a broad spectrum of contemporary childhood issues including debates on child protection school dress codes the media the representation and construction of children in audiovisual media and literary awards for children's fiction Appealing to a wide scholarly audience by joining perspectives from various disciplines including art history education law film and TV studies sociology and literary studies this volume endorses a transdisciplinary and meta theoretical approach to the study of childhood It seeks to both illustrate and dismantle the various ways in which childhood has been implicitly and explicitly conceived in different disciplines in the wake of the constructivist paradigm shift in childhood studies
