the Nurse Psychotherapist is the first book to guide the novice and experienced psychiatric APRN on the process of truly becoming a psychotherapist. It is grounded in the concept of self reflection as a foundation for successful psychotherapeutic practice and addresses a variety of strategies and styles that foster positive outcomes: the use of dreams and other conscious/unconscious techniques, the clinical supervision process, and how to continually grow as an individual and therapist. This resource includes a variety of tools to promote self reflection and provides practical considerations for the work environment, billing, and other administrative responsibilities and political concerns. Abundant case examples allow the reader to sit in on therapy sessions. The book also offers an overview of the history of the psychiatric nurse as therapist and the seminal work of Hildegard Peplau. Written in an approachable and conversational style, this unique resource will prepare nurse psychotherapists to become mindfully ready to help their clients to the fullest.

Key Features: Highlights the importance of self reflection and delivers helpful tools to promote it. Provides strategies and styles for effective therapeutic practice. Allows the reader to sit in on therapy sessions with vivid case examples. Provides a foundation for independent professional and personal growth. Written in an approachable conversational style.

Fast Facts for the Critical Care Nurse, Second Edition Dina Hewett, 2019-11-15. This newly updated quick access guide for critical care nurses covers the most common admitting diagnoses and reviews their causes, signs, and symptoms, and interventions. Critical care nursing requires astute assessment, adept communication, and the ability to multitask, as well as a high degree of adaptability. In the ICU, patient status and plan of care change constantly, presenting multifaceted problems for nurses and healthcare providers. This authoritative resource, with bulleted bite-sized content, provides information to the busy ICU nurse in a heartbeat.

Fast Facts for the Critical Care Nurse, Second Edition has been updated with the most current evidence-based guidelines and standards. Now organized by body system, this reference presents the latest treatment modalities and provides quick access to lab values and hemodynamic parameters. Part I introduces the foundations of critical care. Part II progresses by body system to cover common procedures and interventions. Part III covers patient and family-centered care, discussing palliative directives and organ donation. New to the Second Edition: Seven completely new chapters; Chapter reorganization by body system; Updated to include newest treatment modalities; Speedy access to appendices with common lab values, hemodynamic parameters, IV medications, and EKG rhythm examples.

Key Features: Provides quick access to essential information needed on a daily basis. Includes Fast Facts boxes to help guide the reader. Authored by a respected nurse leader, educator, and AACN Wharton Executive Leadership Fellow.
