## Facts About Elephants

- 1 There are three different species of elephant: the African Savanna (Bush) elephant, the African Forest elephant and the Asian elephant. African and Asian elephants can be identified by the shape of their ears. It is said that African elephants' large ears are shaped a bit like the continent of Africa, whereas Asian elephants have smaller ears that look similar to the shape of India! African Forest elephants have rounder ears and straighter tusks compared to African Savanna elephants.
- 2 Elephants' trunks have approximately 40,000 muscles in them and they can hold up to 8 litres of water!
- 3 Elephants' tusks are, in fact, teeth! They appear when they are around two years old and continue to grow throughout the elephant's life.
- 4 Elephants can spend up to three-quarters of their time eating and need to consume up to around 150 kilograms of food every day!
- 5 Have you ever heard the saying, 'an elephant never forgets'? In elephants, the part of the brain associated with memory (the temporal lobe) is larger and more dense than in humans - that's where the saying originates from.
- 6 Elephants take care of their skin after bathing in waterholes or rivers. They throw mud and mud on themselves which protects them from the heat.
- 7 Elephants are the largest land mammals in the world. Adult male African Savanna elephants weigh approximately 6000kg!
- 8 Elephants have the longest eyelashes in the world - they can grow to over 50 centimetres long!
- 9 Baby elephants grow up quickly. They can start walking within an hour of being born and are quickly able to keep up with the rest of the herd!
- 10 Elephants are social animals. They use many different methods of communication including greeting each other by touching their trunks together.

teaches kids that learning to draw does not happen at once      Elle the Elephant (Illustrated Version) M.G.
