Electronic Monitoring In The Workplace Electronic Monitoring In The Workplace:

Electronic Monitoring in the Workplace: Controversies and Solutions Weckert, John, 2004-11-30 Annotation The use of online technologies has made extensive employee monitoring by employers expensive and easy The rights of employers and the rights of employees are explored in this thoughtful book that contributes to the debate and points the way toward solutions The contributors come from a variety of disciplines countries and cultures and so bring a wide range of perspectives to the issues **The Visible Employee** Jeffrey M. Stanton, Kathryn R. Stam, 2006 The misuse of an organization s information systems by employees whether through error or by intent can result in leaked and corrupted data crippled networks lost productivity legal problems and public embarrassment As organizations turn to technology to monitor employee use of network resources they are finding themselves at odds with workers who instinctively feel their privacy is being invaded The Visible Employee reports the results of an extensive four year research project covering a range of security solutions for at risk organizations as well as the perceptions and attitudes of employees toward monitoring and surveillance The result is a wake up call for business owners managers and IT staff as well as an eye opening dose of reality for employees **Electronic Monitoring in the Workplace** Mary A. Luizza, 1993 **Electronic Monitoring in the Workplace** Lisa Gallatin, Massachusetts Coalition on New Office Technology, 1989 **Electronic Monitoring in the Workplace** , 1990 **ELECTRONIC MONITORING AND SURVEILLANCE IN THE WORKPLACE: A SELECTED BIBLIOGRAPHY.** , 1986 **You're Being Followed** , 2006 **Fundamentals of Employment Law** Kerry E. Notestine, 2000 **Electronic Monitoring and Surveillance in the Workplace** , 2021 This report re evaluates the literature about surveillance monitoring in the standard workplace in home working during the COVID 19 pandemic and in respect of digital platform work It utilised a systematic review methodology see Appendix I A total of 398 articles were identified evaluated and synthesised The report finds that worker surveillance practices have extended to cover many different features of the employees as they work Surveillance in the workplace targets thoughts feelings and physiology location and movement task performance and professional profile and reputation In the standard workplace more aspects of employees lives are made visible to managers through data Employees work non work boundaries are contested terrain The surveillance of employees working remotely during the pandemic has intensified with the accelerated deployment of keystroke webcam desktop and email monitoring in Europe the UK and the USA Whilst remote monitoring is known to create work family conflict and skilled supervisory support is essential there is a shortage of research which examines these recent phenomena Digital platform work features end to end worker surveillance Data are captured on performance behaviours and location and are combined with customer feedback to determine algorithmically what work and reward are offered to the platform worker in the future There is no managerial support and patchy colleague support in a hyper competitive and gamified freelance labour market Once again there is a shortage of research which specifically addresses the effects of

monitoring on those who work on digital platforms Excessive monitoring has negative psycho social consequences including increased resistance decreased job satisfaction increased stress decreased organisational commitment and increased turnover propensity The design and application of monitoring as well as the managerial practices processes and policies which surround it influence the incidence of these psycho social risks Policy recommendations target at mitigating the psycho social risks of monitoring and draw upon privacy data justice and organisational justice principles Numerous recommendations are derived both for practice and for higher level policy development **Privacy in the Workplace**
