Field Guide to the Natural World of New York City Leslie Day, 2007-11-30 Throw it in your backpack hop on the subway and explore *The Politics of Street Trees* Jan Woudstra, Camilla Allen, 2022-03-17 This book focuses on the politics of street trees and the institutions actors and processes that govern their planning planting and maintenance This is an innovative approach which is particularly important in the context of mounting environmental and societal challenges and reveals a huge amount about the nature of modern life social change and political conflict The work first provides different historical perspectives on street trees and politics celebrating diversity in different cultures A second section discusses street tree values policy and management addressing more contemporary issues of their significance and contribution to our environment both physically and philosophically It explores cultural idiosyncrasies and those from the point of view of political economy particularly challenging the neo liberal perspectives that continue to dominate political narratives The final section provides case studies of community engagement civil action and governance International case studies bring together contrasting approaches in areas with diverging political directions or intentions the constraints of laws and the importance of people power By pursuing an interdisciplinary approach this book produces an information base for academics practitioners politicians and activists alike thus contributing to a fairer political debate that helps to promote more democratic environments that are sustainable equitable comfortable and healthier Historical Legacies of Land Use in Cities: Parks, Open Spaces and Potential for Green Infrastructure- Ideas of City Nature in an Urbanizing Planet Stephanie Pincetl, Geoffrey L. Buckley, Jason Antony Byrne, Kitty Connolly, Mary L. Cadenasso, 2022-01-05 From the Ground Up Alison Sant, 2022-01-11 For decades American cities have experimented with ways to remake themselves in response to climate

change These efforts often driven by grassroots activism offer valuable lessons for transforming the places we live In From the Ground Up Local Efforts to Create Resilient Cities design expert Alison Sant focuses on the unique ways in which US cities are working to mitigate and adapt to climate change while creating equitable and livable communities She shows how from the ground up we are raising the bar to make cities places in which we don t just survive but where all people have the opportunity to thrive The efforts discussed in the book demonstrate how urban experimentation and community based development are informing long term solutions Sant shows how US cities are reclaiming their streets from cars restoring watersheds growing forests and adapting shorelines to improve people s lives while addressing our changing climate The best examples of this work bring together the energy of community activists the organization of advocacy groups the power of city government and the reach of federal environmental policy Sant presents 12 case studies drawn from research and over 90 interviews with people who are working in these communities to make a difference For example advocacy groups in Washington DC are expanding the urban tree canopy and offering job training in the growing sector of urban forestry In New York transit agencies are working to make streets safer for cyclists and pedestrians while shortening commutes In San Francisco community activists are creating shoreline parks while addressing historic environmental injustice From the Ground Up is a call to action When we make the places we live more climate resilient we need to acknowledge and address the history of social and racial injustice Advocates non profit organizations community based groups and government officials will find examples of how to build alliances to support and embolden this vision together Together we can build cities that will be resilient to the challenges ahead

**Take to the Trees** Marguerite Holloway, 2025-05-13 One of Heatmap s Climate Books to Read in 2025 An empowering journey into the overstory with the arborists and forest experts safeguarding our iconic trees Journalist Marguerite Holloway arrives at the Women s Tree Climbing Workshop as a climbing novice but with a passion for trees and a deep concern about their future Run by twin sister tree doctors Bear LeVangie and Melissa LeVangie Ingersoll the workshop helps people from everyday tree lovers to women arborists working in a largely male industry develop impressive technical skills and ascend into the canopy As Holloway tackles unfamiliar equipment and dizzying heights she learns about the science of trees and tells the stories of charismatic species including hemlock aspen Atlantic white cedar oak and beech She spotlights experts who are chronicling the great dying that is underway in forests around the world as trees face simultaneous and accelerating threats from drought heat floods disease and other disruptions As she climbs Holloway also comes to understand the profound significance of trees in her relationship with her late mother and brother The book s rousing final chapter offers something new a grander environmental and arboreal optimism in which the story of trees and their resilience meshes with that of people working to steward the forests of the future and of community found among fellow tree climbers A lyrical work of memoir and reportage Take to the Trees sounds the alarm about rapid arboreal decline while also offering hope about how we might care for our forests and ourselves
