**Digital Social Reading and Second Language Learning and Teaching** Joshua J. Thoms, Kristen Michelson, 2024-10-15 Rapid changes in communication channels tools and conventions of interaction over the last two decades have paved the way for increasingly digital learning environments In second language L2 education shifts toward digital learning and teaching were intensified during the pandemic and many such formats are here to stay At the same time a growing interest in socially oriented pedagogies in L2 learning and teaching is prompting many L2 researchers and practitioners to investigate new research areas and explore post communicative language teaching pedagogies that engage learners more deeply with cultural texts using a range of semiotic and linguistic resources Digital Social Reading DSR is a pedagogical approach that affords technology mediated collaborative reading where texts are read through a digital platform that allows two or more readers to highlight the same virtual copy of a text and discuss it through a digital interface that affords synchronous or asynchronous margin dialogues anchored in specific passages This book offers empirical studies demonstrating how DSR can foster and illuminate learner interactions that mediate learning and also work

that focuses on language teaching perspectives in DSR environments including task design and assessment issues

**Technology-Enhanced Language Learning for Specialized Domains** Elena Martín-Monje, Izaskun Elorza, Blanca García Ríaza, 2016-03-10 Technology Enhanced Language Learning for Specialized Domains provides an exploration of the latest developments in technology enhanced learning and the processing of languages for specific purposes. It combines theoretical and applied research from an interdisciplinary angle covering general issues related to learning languages with computers, assessment, mobile assisted language learning, the new language massive open online courses, corpus based research and computer assisted aspects of translation. The chapters in this collection include contributions from a number of international experts in the field with a wide range of experience in the use of technologies to enhance the language learning process. The essays have been brought together precisely in recognition of the demand for this kind of specialised tuition offering state of the art technological and methodological innovation and practical applications. The topics covered revolve around the practical consequences of the current possibilities of mobility for both learners and teachers as well as the applicability of updated technological advances to language learning and teaching particularly in specialized domains. This is achieved through the description and discussion of practical examples of those applications in a variety of educational contexts. At the beginning of each thematic section readers will find an introductory chapter which contextualises the topic and links the different examples discussed. Drawing together rich primary research and empirical studies related to specialized tuition and the processing of languages, Technology Enhanced Language Learning for Specialized Domains will be an invaluable resource for academics, researchers and postgraduate students in the fields of education, computer assisted language learning, languages and linguistics and language teaching.

Emerging Technologies and Pedagogies in the Curriculum Shengquan Yu, Mohamed Ally, Avgoustos Tsinakos, 2020-01-03 This book explores the technologies that can be used in curricula to make education smarter and more adaptive in order to better meet the needs of today's learners. The main emphasis is based on the theory and best practices of incorporating emerging technologies into curricula so as to educate learners in the 21st century. The book provides valuable insights into the future of education and examines which pedagogies are most suitable for integrating emerging technologies. It will help educators and stakeholders design and implement curricula that effectively prepare learners for the challenges of tomorrow.
