## **Global Tobacco Control Power Policy Governance And Transfer:**

Global Tobacco Control P. Cairney,D. Studlar,H. Mamudu,2011-12-02 The first major book by political scientists explaining global tobacco control policy It identifies a history of minimal tobacco control then charts the extent to which governments have regulated tobacco in the modern era It identifies major policy change from the post war period and uses theories of public policy to help explain the change      Law and Global Health Michael Freeman,Sarah Hawkes,Belinda Bennett,2014-05-29 Current Legal Issues like its sister volume Current Legal Problems now available in journal format is based upon an annual colloquium held at University College London Each year leading scholars from around the world gather to discuss the relationship between law and another discipline of thought Each colloquium examines how the external discipline is conceived in legal thought and argument how the law is pictured in that discipline and analyses points of controversy in the use and abuse of extra legal arguments within legal theory and practice Law and Global Health the sixteenth volume in the Current Legal Issues series offers an insight into the scholarship examining the relationship between global health and the law Covering a wide range of areas from all over the world articles in the volume look at areas of human rights vulnerable populations ethical issues legal responses and governance      **Secondary Rules of Primary Importance in International Law** Gábor Kajtár,Basak Çali,Marko Milanovic,2022-10-31 The focus of this edited volume is the often overlooked importance of secondary rules of international law Secondary rules of international law such as attribution causality and the standard and burden of proof have often been neglected in scholarly literature and have seen fragmented application in international legal practice Yet the systemic nature of international law entails that coherent and consistent application of such rules is a key element in reinforcing the legitimacy of decisions of international courts and tribunals Accelerated development of international law and international litigation coupled with the fragmented nature of the adjudicatory terrain calls for theoretical scrutiny and systemic analysis of the developments in the judicial treatment of secondary rules This publication makes three important contributions to the study of secondary rules First it offers a comprehensive expert doctrinal analysis of how standard of review causation evidentiary rules and attribution operate in the case law of international courts or tribunals in fields spanning human rights trade investment and humanitarian law Second it comparatively evaluates the divergent layers of meanings and normative expectations attached to secondary rules in international law scholarship as well as in the judicial practice of international courts and tribunals Finally the book investigates the role that secondary rules play in the development of the primary rules in international law and for the legitimacy of the decisions of international courts and tribunals Earlier scholarly works have not problematized the role of secondary rules of international law in adjudication thoroughly Secondary Rules of Primary Importance in International Law seeks to fill this gap by emphasizing the consequential nature of these secondary rules and argues that the outcome of litigation is fundamentally shaped by the exact standard of proof standard of review or attribution basis that is chosen by

adjudicators As such the book offers an important resource for the study and practice of international law against the backdrop of the wide ranging and fragmented nature of international adjudication De Gruyter Handbook of Contemporary Welfare States Bent Greve, 2022-09-06 Globalisation regionalisation new technology demography voters expectations and re structuring of societies are expected to influence welfare state development for years to come This handbook analyses how different welfare state models and regimes will be able to cope with contemporary and future challenges providing a variety of evidence based tools that make it essential reading for students researchers and policy makers alike

**The Tobacco Epidemic** R., Loddenkemper, M., Kreuter, 2015-03-27 This completely revised and enlarged 2nd edition of The Tobacco Epidemic provides a comprehensive update of the clinical public health and political aspects of tobacco smoking Since its 1st edition in 1997 knowledge on the health hazards of tobacco and nicotine addiction has increased considerably but recent data has shown that the global problem has become more aggravated in low and middle income countries if current trends continue tobacco smoking will be responsible for the deaths of 1 billion people in the 21st century Written by outstanding international experts the book covers the history of tobacco production and use the economics of tobacco use and control as well as the health consequences of active and passive smoking in both adults and children Special chapters discuss the impact of media movies and TV on tobacco consumption in young people the patterns and predictors of smoking cessation in the general population and in different social subgroups and initiatives supported by the WHO Framework Convention on Tobacco Control Readers will find the latest information on how nicotine dependence is treated with nicotine replacement products what role health care professionals play in helping smokers to quit and what effects smoke free environments advertising bans and price increases have on smoking prevalence The potential harms and benefits of smokeless tobacco waterpipe tobacco smoking and electronic cigarettes are also evaluated This book is a must read for anyone in the medical profession who treats patients with smoking related diseases and for those engaged in tobacco control It will also be appreciated by interested nonmedical readers like journalists and legislators

*The Scottish Political System Since Devolution* Paul Cairney, 2012-01-30 This book presents a narrative of Scottish politics since devolution in 1999 It compares eight years of coalition government under Scottish Labour and the Scottish Liberal Democrats with four years of Scottish National Party minority government It outlines the relative effect of each government on Scottish politics and public policy in various contexts including high expectations for new politics that were never fully realised the influence of and reactions from the media and public the role of political parties the Scottish Government's relations with the UK Government EU institutions local government quasi governmental and non governmental actors and the finance available to fund policy initiatives It then considers how far Scotland has travelled on the road to constitutional change comparing the original devolved framework with calls for independence or a new devolution settlement The book draws heavily on information produced since 1999 by the Scottish Devolution Monitoring project which forms one part of the devolution

monitoring project led by the Constitution Unit UCL and is supplemented by new research on public policy minority government intergovernmental relations and constitutional change

Global Health Governance and the Fight Against HIV/AIDS Wolfgang Hein, Sonja Bartsch, Lars Kohlmorgen, 2007-08-09 This book addresses conflicts and institutional changes of global health governance in the fight against HIV and AIDS

**The Battle for Standardised Cigarette Packaging in Europe** Benjamin Hawkins, Chris Holden, Sophie Mackinder, 2019-11-26 This book is essential reading for researchers of tobacco policy change Too many studies simply complain that change is too slow because tobacco companies are too powerful and politicians lack the will to challenge them This book goes much further to help us understand not just industry strategy but the policy processes in which policy advocates engage learn from each other and help create essential global tobacco policy change Paul Cairney University of Stirling UK This book is rare in making genuinely significant contributions across both public health and policy studies By focusing on the battle for standardised packs it engagingly addresses one of the most prominent recent innovations in health policy that has relevance both beyond Europe and across multiple spheres of health policy In doing so it also offers an innovative analysis of the role of transnational corporations in policy transfer Jeff Collin University of Edinburgh UK This book analyses the battle for standardised cigarette packaging plain packaging in Europe drawing on the concepts of multi level governance and policy transfer It analyses the strategies of policy makers non governmental organisations and transnational tobacco companies in attempting either to advance or to block the introduction of standardised packaging Taking a global and multi level approach it analyses these struggles within European Union institutions EU member states and across jurisdictions as NGOs and tobacco companies worked transnationally to counter each other As well as presenting original empirical research detailing these policy battles the book provides new theoretical insights into policy transfer processes particularly within multi level polities showing how transnational corporations can have dramatic effects on these processes The book will appeal equally to public health researchers policy analysts and political scientists

The Politics of the Evolution of Global Tobacco Control, 1960s-2000s Hadii Mamudu, 2008 This book analyzes the politics behind the evolution of tobacco control from the concern of a few developed countries in the 1960s into a global issue and leading to the adoption of the 2003 World Health Organization WHO Framework Convention on Tobacco Control FCTC the first global public health treaty The book relies on liberal constructivist perspective to analyze this transformation of the status of tobacco control in the international system Methodologically the book triangulates elite interviews with archival documents and secondary data The author concludes that the presence of an institution WHO with constitutional powers in public health to develop a regime in tobacco control and the activities of governmental and nongovernmental actors to diffuse and transfer knowledge information and ideas about tobacco use and tobacco control and lesson drawing contributed to the emergence of tobacco control as a global phenomenon and a subject of collective action the FCTC This book is useful for courses in international relations public
