Global Feminisms Since 1945 Bonnie G. Smith, 2000 Forthcoming Books Rose Arny, 1995 *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures*, 2008 **Globalizing Feminisms, 1789-1945** Karen M. Offen, 2010 This definitive reader presents a coherent comprehensive and comparative collective history of women's activism throughout the world The chapters are supported by a global timeline of events **Feminisms** Lucy Delap, 2020-11-24 A global useable history of feminism that incorporates alternative starting points and new thinkers challenging the presumed priority of European feminism and offering a reinterpretation of the historical record Feminism's origins have often been framed around a limited cast of mostly white and educated foremothers but the truth is that feminism has been and continues to be a global movement For centuries women from all walks of life have been mobilizing for gender justice As the last decade has reminded even the most powerful women there is nothing post feminist about our world And there is much to be learned from the passion and protests of the past Historian Lucy Delap looks to the global past to give us a usable history of the movement against gender injustice one that can help clarify questions of feminist strategy priority and focus in the contemporary moment Rooted in recent innovative histories the book incorporates alternative starting points and new thinkers challenging the presumed priority of European feminists and ranging across a global terrain of revolutions religions empires and anti colonial struggles In *Feminisms* we find familiar stories of suffrage of solidarity of protest yet there is no assumption that feminism looks the same in each place or time Instead Delap explores a central paradox feminists have demanded inclusion but have persistently practiced their own exclusions Some voices are heard and others are routinely muted In amplifying the voices of figures at the grassroots level Delap shows us how a rich relationship to the feminist past can help inform its future No Turning Back Estelle Freedman, 2003-01-01 On the situations of women around the world today this one book provides more illumination and insight than a dozen others combined Freedman's survey is a triumph of global scope and informed precision NANCY F COTT Professor of History Harvard University Repeatedly declared dead by the media the women's movement has never been as vibrant as it is today Indeed as Stanford professor and award winning author Estelle B Freedman argues in her compelling book feminism has reached a critical momentum from which there is no turning back Freedman examines the historical forces that have fueled the feminist movement over the past two hundred years and explores how women today are looking to feminism for new approaches to issues of work family sexuality and creativity Drawing examples from a variety of countries and cultures from the past and the present this inspiring narrative will be required reading for anyone who wishes to understand the role women play in the world Searching in its analysis and global in its perspective *No Turning Back* will stand as a defining text in one of the most important social movements of all time Women's History in Global Perspective Bonnie G. Smith, In Praise of Difference Rosiska Darcy de Oliveira, 1998 Women in Transnational History Senior Lecturer in History Clare

Midgley, Alison Twells, Julie Carlier, 2016-05-24 *Women in Transnational History* offers a range of fresh perspectives on the field of women's history exploring how cross border connections and global developments since the nineteenth century have shaped diverse women's lives and the gendered social cultural political and economic histories of specific localities. The book is divided into three thematically organised parts covering gendered histories of transnational networks, women's agency in the intersecting histories of imperialisms and nationalisms and the concept of localizing the global and globalizing the local. Discussing a broad spectrum of topics from the politics of dress in Philippine mission stations in the early twentieth century to the shifting food practices of British women during the Second World War, the chapters bring women to the centre of the writing of new transnational histories. Illustrated with images and figures, this book throws new light on key global themes from the perspective of women's and gender history. Written by an international team of editors and contributors, it is a valuable and timely resource for students and researchers of both women's history and transnational and global history.
