Global Feminisms Since 1945 Rewriting Histories:

Global Feminisms Since 1945 Bonnie G. Smith, 2000 *Global Feminisms Since 1945* Bonnie G. Smith, 2000 *Global Feminisms Since 1945* is an innovative historical introduction to the issues of contemporary feminism with a truly global perspective. It is a concise anthology considering the similarities and differences between feminisms in West and East North and South and highlighting class, racial, ethnic, and imperial tensions and claims in the twentieth century. The book analyses the roots, development, and in some cases the conclusions of feminisms and how they have interacted. From the European and American feminist movements to those in the ex-Soviet Union and women's rights groups in Africa and East Asia, *Global Feminisms Since 1945* examines the key economic, technological, sexual, reproductive, ecological, and political debates.

Women's Movements in Asia Mina Roces, Louise Edwards, 2010-06-10. Written by leading international experts, this book provides an overview of the history and current context of feminism in 12 Asian countries. This breadth of coverage, together with suggestions for further study and an integrated cross-national timeline, makes *Women's Movements in Asia* ideal for use on courses looking at women and feminism in Asia.

Gender and Citizenship in Historical and Transnational Perspective Anne Epstein, Rachel Fuchs, 2017-09-16. With gender as its central focus, this book offers a transnational, multi-faceted understanding of citizenship as legislated, imagined, and exercised since the late eighteenth century. Framed around three crosscutting themes: agency, space, and borders, leading scholars demonstrate what historians can bring to the study of citizenship and its evolving relationship with the theory and practice of democracy and how we can make the concept of citizenship operational for studying past societies and cultures. The essays examine the past interactions of women and men with public authorities, their participation in civic life within various kinds of polities, and the meanings they attached to their actions. In analyzing the way gender operated both to promote and to inhibit civic consciousness, action, and practice, this book advances our knowledge about the history of citizenship and the evolution of the modern state.

Gender and International Security Laura Sjoberg, 2009-10-16. This book defines the relationship between gender and international security, analyzing and critiquing international security theory and practice from a gendered perspective. Gender issues have an important place in the international security landscape but have been neglected both in the theory and practice of international security. The passage and implementation of UN Security Council Resolution 1325 on Security Council operations, the integration of gender concerns into peacekeeping, the management of refugees, post-conflict disarmament, and reintegration and protection for non-combatants in times of war shows the increasing importance of gender sensitivity for actors on all fronts in global security. This book aims to improve the quality and quantity of conversations between feminist security studies and security studies more generally in order to demonstrate the importance of gender analysis to the study of international security and to expand the feminist research program in Security Studies. The chapters included in this book not only challenge the assumed irrelevance of gender; they argue that gender is not a subsection of

security studies to be compartmentalized or briefly considered as a side issue. Rather, the contributors argue that gender is conceptually, empirically, and normatively essential to studying international security. They do so by critiquing and reconstructing key concepts and theories in international security by looking for the increasingly complex roles women play as security actors and by looking at various contemporary security issues through gendered lenses. Together, these chapters make the case that accurate, rigorous, and ethical scholarship of international security cannot be produced without taking account of women's presence in or the gendering of world politics. This book will be of interest to all students of critical security studies, gender studies, and International Relations in general. Laura Sjoberg is Assistant Professor of Political Science at the University of Florida. She has a Ph.D. in International Relations and Gender Studies from the University of Southern California and is the author of *Gender Justice and the Wars in Iraq* (2006) and with Caron Gentry, *Mothers Monsters: Whores, Women's Violence in Global Politics* (2007). *A Companion to Gender History* Teresa A. Meade, Merry E.

Wiesner-Hanks, 2008-04-15 *A Companion to Gender History* surveys the history of women around the world, studies their interaction with men in gendered societies, and looks at the role of gender in shaping human behavior over thousands of years. An extensive survey of the history of women around the world, their interaction with men, and the role of gender in shaping human behavior over thousands of years. Discusses family history, the history of the body and sexuality, and cultural history alongside women's history and gender history. Considers the importance of class, region, ethnicity, race, and religion to the formation of gendered societies. Contains both thematic essays and chronological geographic essays. Gives due weight to prehistory and the pre-modern era as well as to the modern era. Written by scholars from across the English-speaking world and scholars for whom English is not their first language. **They Didn't See Us Coming** Lisa Levenstein, 2020-07-14 From an award-winning scholar, a vibrant portrait of a pivotal moment in the history of the feminist movement. From the declaration of the Year of the Woman to the televising of Anita Hill's testimony from *Bitch* magazine to SisterSong's demands for reproductive justice, the 1990s saw the birth of some of the most lasting aspects of contemporary feminism. Historian Lisa Levenstein tracks this time of intense and international coalition building, one that centered on the growing influence of lesbians, women of color, and activists from the global South. Their work laid the foundation for the feminist energy seen in today's movements, including the 2017 Women's March and MeToo campaigns. A revisionist history of the origins of contemporary feminism, *They Didn't See Us Coming* shows how women on the margins built a movement at the dawn of the Digital Age.

Post-Jazz Poetics J. Ryan, 2010-05-24 African American expressive arts draw upon multiple traditions of formal experimentation in the service of social change. Within these traditions, Jennifer D. Ryan demonstrates that Black women have created literature, music, and political statements signifying some of the most incisive and complex elements of modern American culture. *Post-Jazz Poetics: A Social History* examines the jazz-influenced work of five twentieth-century African American women poets: Sherley Anne Williams, Sonia Sanchez, Jayne Cortez, Wanda Coleman, and Harryette Mullen.

These writers engagements with jazz based compositional devices represent a new strand of radical black poetics while their renditions of local to global social critique sketch the outlines of a transnational feminism **Exploring Women's Studies** Carol Berkin, Judith L.
