Globalization And Cultural Trends In China:

Globalization and Cultural Trends in China Kang Liu, 2003-12-31 In this timely work Liu Kang argues that globalization in China is both a historical condition in which the country's gaige kaifang reform and opening up has unfolded and a set of values or ideologies by which it and the rest of the globe are judged. Moreover, globalization signals a significant ascendancy of culture. Liu examines China's current ideological struggles in political discourse, intellectual debate, popular culture, avant-garde literature, the news media, and the internet. With careful textual analysis and observation informed by critical theories and cultural studies, he offers a forceful critique of the Chinese version of globalism that privileges economic development at the expense of social justice and equality.

China's Literary and Cultural Scenes at the Turn of the 21st Century Jie Lu, 2013-10-18 China's literary and cultural production at the turn of the twenty-first century is marked by heterogeneity, plurality, and diversity. Given its complexity, the literary-cultural production of this period perhaps can be understood most productively as a response to a global modernity that has touched and transformed all aspects of contemporary Chinese reality. The eleven essays in this book offer an introduction to some of the most important works published at the turn of the twenty-first century. In combining textual analysis of specific works with theoretical insights and in locating the texts in their sociocultural and socioeconomic contexts, the essays explore key theoretical issues and intellectual concerns of the time. They collectively draw a broad contour of new developments, major trends, and radical changes capturing the intellectual and cultural Zeitgeist of the age. All in all, these essays offer new theoretical approaches to and critical perspectives on contemporary Chinese literature and culture.

China's Encounter with Global Hollywood Wendy Su, 2016-05-13 In recent years, the film industry in the People's Republic of China has found itself among the top three most prolific in the world. When the Chinese government introduced a new revenue sharing system in 1994, the nation's total movie output skyrocketed, with gross box office receipts totaling billions of yuan. This newfound success, however, has been built on an alternately competitive and collaborative relationship between the ascendant global power of China and the popular culture juggernaut of America. In *China's Encounter with Global Hollywood*, Wendy Su examines the intertwining relationships among the Chinese state, global Hollywood, and the Chinese film industry while analyzing the causes and consequences of the rapid growth of the nation's domestic film production. She demonstrates how the Chinese state has consolidated power by negotiating foreign interest in the lucrative Chinese market while advancing its cultural industries. Su also reveals how mainland Chinese and Hong Kong filmmakers have navigated the often incompatible requirements of marketization and state censorship. This timely analysis demonstrates how China has cannily used global capital to modernize its own film industry and now stands poised to step clear of Hollywood's shadow. The country's debates on and offscreen over cultural change, market-based economic reforms, and artistic freedom illuminate China's ongoing efforts to build a modern national identity.
