Dmocratie Collectif:

Quebec Women and Legislative Representation Manon Tremblay, 2010-07-01 Quebec women have had the right to vote and run for office in provincial and federal forums for at least six decades yet they continue to occupy a minority of seats in Quebec's National Assembly and in Canada's House of Commons and Senate To explain this situation *Women and Parliamentary Representation in Quebec* examines women's engagement in politics from 1791 to the present It begins by tracing the path that led to women achieving the right to vote and run for office and then draws on statistics and interviews with women senators and members of Parliament to complete an in depth portrait of Quebec women's under representation and its main causes political parties and the voting system This innovative account not only documents the significant democratic deficit in Canada's parliamentary systems it also outlines strategies to improve women's access to legislative representation in Canada and elsewhere

Constitutionalism and Democracy Richard Bellamy, 2017-07-05

Constitutionalism and democracy have been interpreted as both intimately related and intrinsically opposed On the one hand constitutions are said to set out the rules of the democratic game on the other as constraining the power of the demos and their representatives to rule themselves including by reforming the very processes of democracy itself Meanwhile constitutionalists themselves differ on how far any constitution derives its authority from and should itself be subject to democratic endorsement and interpretation They also dispute whether constitutions should refer solely to democratic processes or also define and limit democratic goals Each of these positions produces a different view of judicial review the content and advisability of a Bill of Rights and the nature of constitutional politics These differences are not simply academic positions but are reflected in the different types of constitutional democracy found in the United States continental Europe Britain and many commonwealth countries The selected essays explore these issues from the perspectives of law philosophy and political science A detailed and informative introduction sets them in the context of contemporary debates about constitutionalism

The Sources of Secularism Anna Tomaszewska, Hasse Hämäläinen, 2017-10-05 This book examines the importance of the Enlightenment for understanding the secular outlook of contemporary Western societies It shows the new ways of thinking about religion that emerged during the 17th and 18th centuries and have had a great impact on how we address problems related to religion in the public sphere today Based on the assumption that political concepts are rooted in historical realities this collection combines the perspective of political philosophy with the perspective of the history of ideas Does secularism imply that individuals are not free to manifest their beliefs in public Is secularization the same as rejecting faith in the absolute Can there be a universal rational core in every religion Does freedom of expression always go hand in hand with freedom of conscience Is secularism an invention of the predominantly Christian West which cannot be applied in other contexts specifically that of Muslim cultures Answers to these and related questions are sought not only in current theories and debates in political philosophy but also in the writings of Immanuel Kant Benedict Spinoza Thomas Hobbes

Anthony Collins Adriaan Koerbagh Abb Claude Yvon Giovanni Paolo Marana and others The Caliphate of Man Andrew F. March, 2019-09-03 Islamist thinkers used to debate the doctrine of the caliphate of man which holds that God is sovereign but has appointed the multitude of believers as His vicegerent Andrew March argues that the doctrine underpins a democratic vision of popular rule over governments and clerics But is this an ideal regime destined to survive only in theory **La démocratie et l'élection proportionnelle** Nikolaos N.
