Equality And Power In Schools Equality And Power In Schools:

Equality and Power in Schools Anne Lodge, Kathleen Lynch, 2004-11-23 Based on a study of 12 schools over a two year period this book explores issues of equality and power both in the classroom and in the staffroom Through classroom observation interviews with pupils and staff focus groups and questionnaires the authors examine classroom practice grouping and streaming peer group relations and attitudes to power relationships both between pupils and teachers and amongst teachers themselves They also look particularly at the different experiences of pupils in single sex and co educational schools The authors findings offer an insight into the way schools operate in terms of social class gender religion and ethnicity and raise fundamental questions about the use and abuse of power in schools and how this affects the lives of pupils and staff This book will be of interest to those studying education sociology gender studies and women s studies and to policy makers and teachers in senior management roles *Democracy, Education and Research* John Schostak, Ivor F. Goodson, 2019-08-09 Considering how practices and processes of research and education can create fundamental radical social change *Democracy Education and Research* assesses the meaning of public impact by rethinking what is meant by public and how it is essential to the methodologies of education and research Focusing on empirical illustrations of the use of research and educational processes in contemporary and emergent forms of social organisation this book Covers the traditional forms to be found in education health systems community business and public institutions as well as emergent forms arising from innnovation in technologies Explores the forms of learning and knowledge creation that take place across the everyday interactions in places of learning communities or workplaces Discusses how learning and knowledge can be intentionally shaped by individuals and groups to effect social and political change Considers the research strategies required to forge new practices new ways of working and living for a more socially just world Including practical examples of research that has created real change *Democracy Education and Research* will be a vital resource to professional researchers in their roles as teachers educators and activists as well as students of education sociology politics cultural studies

Liberty, Equality, Power John Murrin, 2002-05-20 *Liberty Equality Power A History of the American People Concise Edition* provides students with a clear understanding of how power is gained lost and used in both public and private life This concise version retains the narrative clarity unparalleled coverage and thematic unity of the larger text while fashioning an unmatched integration of social and cultural history into a political story The concise version s emphasis on clarity and brevity provides a leaner and clearer presentation for introductory American history students It retains the same strong chronological and thematic framework as the bigger text but offers a more manageable option for instructors concerned about too much material and too little time *The Journal of Education* Thomas Williams Bicknell, Albert Edward Winship, Anson Wood Belding, 1905 *Liberty, Equality, Power* John M. Murrin, 2006 Emphasizing the role of power in American history this textbook recounts the country s transformation from a collection of indigenous hunter gatherer

McDermott, 1999 Most Americans believe that local school districts are the only means by which citizens may exercise control over public education Kathryn McDermott argues to the contrary that existing local institutions are no longer sufficient for achieving either equity or democratic governance Not only is local control inequitable it also fails to live up to its reputation for guaranteeing public participation and citizen influence Drawing upon democratic theory and the results of field research in New Haven Connecticut and three suburbs McDermott contends that our educational system can be made more democratic by centralizing control over funding while decentralizing most authority over schools to the level of schools themselves while enacting public school choice controlled for racial balance To many people in Connecticut and elsewhere the tension between equal opportunity for all students and local control of public education seems impossible to resolve In 1996 the Connecticut Supreme Court ruled in *Sheff v O'Neill* that local control produces unconstitutional segregation of public schools Nearly all of the state's 169 towns operate their own public schools and like the towns they serve the schools are generally homogeneous with respect to race and socioeconomic class In the *Sheff* ruling the court declared that making school districts coterminous with town lines is the single most important factor contributing to the present concentration of racial and ethnic minorities in the Hartford public school system At the same time the court also acknowledged that the town based school system presently furthers the legitimate nonracial interests of permitting considerable local control and accountability in educational matters In Connecticut and elsewhere it has often seemed necessary to choose between local control and equity in public education and local control has almost always won McDermott argues that rather than seeing local control and equity as conflicting goals policymakers should regard them as equally important components of democracy in public education In her view a truly democratic system of education should both encourage citizen participation in school governance and contribute to the formation and maintenance of a social order in which equality of opportunity prevails over hierarchies of privilege Centralizing distribution of resources and using controlled choice to end racial isolation would provide greater equality of opportunity while decentralizing management of schools would expand citizen participation McDermott's conclusions break new ground in our understanding of local school governance itself and call into question the conventional wisdom about local participation These findings should interest those who study school governance and reform especially in an urban setting as well as policy makers administrators teachers students and citizens eager to improve their schools Limitations of the
