El fin de la guerra fría y el salvaje mundo nuevo Juan José Bremer, 2007-08-31. Un diagnóstico indispensable sobre nuestra actualidad con gran conocimiento de los factores culturales e históricos de la Europa de fin de siglo XX y los viejos problemas internacionales que habrá que trascender ante un salvaje nuevo mundo. Juan José Bremer expone sus reflexiones acerca de los acontecimientos históricos que le ha tocado presenciar como parte del cuerpo diplomático mexicano en importantes misiones en los últimos años. Nos brinda una visión histórica y de futuro sobre las consecuencias y posibles desenlaces que pueden tener las transiciones políticas que se han desencadenado a partir del colapso de la Unión Soviética, la caída del muro de Berlín, la unificación alemana, la creación de la comunidad europea y la relación atlántica. Su análisis incluye los ataques terroristas del 11 de septiembre, las relaciones entre Europa y Estados Unidos y la configuración de un nuevo orden globalizado. Los nuevos desafíos a superar ante un orden internacional que resuelva los conflictos entre regiones y nacionalidades, migraciones y productividad económica, laicos y creyentes, etcétera, y que dé una salida al rezago de las instituciones respecto a las nuevas realidades, particularmente la internacionalización de la economía y el progreso informático y de las telecomunicaciones. Otros autores han opinado. El libro de Juan José Bremer es una importante contribución a lo que el autor llama un pensamiento alternativo sobre las prioridades y valores de nuestra postmodernidad. Carlos Fuentes.

The Revolutions of 1989 Wolfgang Mueller, Michael Gehler, Arnold Suppan, 2015. Only a few people foresaw the sudden and momentous events of 1989: within months the seemingly unshakable communist regimes of Eastern Europe were washed away and with them the postwar international order. This book gives an overview over the national revolutions and external reactions. It contains chapters on the revolutions in all major countries of the former communist bloc as well as on the responses of all major international players. The first part examines the revolutionary events from above and from below in Eastern Europe as well as China and their backgrounds. The second part deals with Soviet and Western perceptions and responses. The third part focuses on the aftermath of the revolutions on societal transformations, the acceptance of the new Central European democracies by NATO and the EU and on the memory of 1989.

German National Identity in the Twenty-First Century Ruth Wittlinger, 2010-10. This book shows that German national identity has undergone considerable changes since unification in 1990. Due to the external pressures of the post-cold war world but also due to domestic developments such as recent dynamics of collective memory, Germany has re-emerged as a confident nation which is less hesitant to assert its national interest.
