Ernest Gellner Nations And Nationalism:

Nations and Nationalism Ernest Gellner, 2008 Originally published as hbk Malden MA Blackwell Pub 2006 Nations and Nationalism Ernest Gellner, 1983 This thoughtful and penetrating book addressed to political scientists sociologists historians and anthropologists interprets nationalism in terms of its social roots which it locates in industrial social organization Professor Gellner asserts here that a society's affluence and economic growth depend on innovation occupational mobility the effectiveness of the mass media universal literacy and an all embracing educational system based on a shared standard idiom These factors taken together govern the relationship between culture and the state Political units that do not conform to the principle one state one culture feel the strain in the form of nationalistic activity Nations and Nationalism Ernest Gellner, 2006 This updated edition of Ernest Gellner's classic exploration of the roots of nationalism includes an extended introduction from John Breuilly tracing the way the field has changed over the past two decades As pertinent today as it was when it was first published in 1983 Argues that nationalism is a product of industrialization The new edition includes references to important work on nationalism published since 1983 Second Edition not available in the USA

An Analysis of Ernest Gellner's Nations and Nationalism Dale Stahl, 2017-07-05 To the dismay of many commentators who had hoped the world was evolving into a more tolerant and multicultural community of nations united under the umbrellas of supranational movements like the European Union the nationalism that was such a potent force in the history of the 20th century has made a comeback in recent years Now more than ever it seems important to understand what it is how it works and why it is so attractive to so many people A fine place to start any such exploration is with Ernest Gellner's seminal *Nations and Nationalism* a ground breaking study that was the first to flesh out the counter intuitive but enormously influential thesis that modern nationalism has little if anything in common with old fashioned patriotism or loyalty to one's homeland Gellner's intensely creative thesis is that the nationalism we know today is actually the product of the 19th century industrial revolution which radically reshaped ancient communities encouraging emigration to cities at the same time as it improved literacy rates and introduced mass education Gellner connected these three elements in an entirely new way contrasting developments to the structures of pre industrial agrarian economies to show why the new nationalism could not have been born in such communities He was also successful in generating a typology of nationalisms in an attempt to explain why some forms flourished while others fizzled out His remarkable ability to produce novel explanations for existing evidence marks out *Nations and Nationalism* as one of the most radical stimulating and enduringly influential works of its day *Nations and Nationalism* Dale J. Stahl, 2017-07-05 Ernest Gellner a Jew who escaped from Czechoslovakia in 1939 after Hitler invaded knew first hand the catastrophic effects of excessive nationalism and he was determined to understand the phenomenon that had shaped so much of 20th century history **Nationalism** Ernest Gellner, 1997 In this provocative essay finished just before the author's death Gellner explores the subject with which he was most associated

throughout his life that of nationalism He demonstrates how the histories of nationalism and industrialization are crucially linked and drawing together the history of philosophy economics and political thought he contrasts nationalism with religious fundamentalism in a debate that remains of continuing importance to modern politics and international relations *The Social Philosophy of Ernest Gellner* ,2023-12-28 **Encounters With Nationalism** Ernest Gellner,1994 The forecast demise of nationalism under the new moral orders of communism and internationalism has proved illusory In the present century to an extent greater perhaps than in all others nationalism has been the dominant force in the affairs of humankind Why should this have been Why is it that a national identity should continue to be the aspiration of almost all peoples without one and at the same time the justification in the process of obtaining securing and expanding it for casting aside every trace and tradition of civility In *Encounters with Nationalism* Ernest Gellner seeks some answers His approach is to consider first the ideas of the main modern thinkers on the subject from Marx List Malinowski and Carr to Masaryk Heidegger Patocka Hroch Havel and Said He examines the origins subjects and context of their writings their interactions with culture and politics and their influence both on theory and on events The range is wide covering Eastern Western and Islamic societies and includes extensive discussions of the related themes of civil society theocracy communism imperialism capitalism and liberalism Professor Gellner is never less than trenchant He is concerned here not only to understand but to criticize He confronts several powerful and fashionable notions that fuel and or attempt to explain contemporary nationalism among them postcolonialism On the one hand he exposes their incoherence and irresponsibility on the other he places them alongside ideas of real currency Nor does he evade the controversy surrounding the nature of judgement itself the reader will also find here concise and penetrating discussions of relativism pluralism objectivity and the possibility of universal values **The State of the Nation. Ernest Gellner and the Theory of Nationalism** John A. Hall,2000 *Nations and Nationalism* Philip Spencer,Howard Wollman,2005 Nationalism is a key area of political theory with a huge amount of literature available This text includes both the core texts in this area and a selection of less mainstream pieces with the aim of engaging readers with contemporary debates which have reconfigured understanding of nationalism *Geography of Hope* Pierre Birnbaum,2008 In *Geography of Hope* French sociologist and historian Pierre Birnbaum examines the work of some of the prominent Jewish social scientists of the past two centuries in order to analyze their range of responses to the tensions between the Enlightenment call for universalism and the reality of Jewish particularism **The Ernest Gellner Nationalism Lecture** ,2004 *Czecho/Slovakia* Eric Stein,2000-01-26 Describes the peaceful breakup of the Czechoslovak Federation [Scaling the Balkans](#) Maria N. Todorova,2018-09-11 *Scaling the Balkans* puts in conversation several fields that have been traditionally treated as discrete Balkan studies Ottoman studies East European studies and Habsburg and Russian studies By looking at the complex interrelationship between countries and regions demonstrating how different perspectives and different methodological approaches inflect interpretations and conclusions it insists on the heuristic value

of scales The volume is a collection of published and unpublished essays dealing with issues of modernism backwardness historical legacy balkanism post colonialism and orientalism nationalism identity and alterity society and nation building historical demography and social structure socialism and communism in memory and historiography **Ernest Gellner**

John A. Hall, 2014-06-10 Ernest Gellner 1925-95 was a multilingual polymath and a public intellectual who set the agenda in the study of nationalism and the sociology of Islam Having grown up in Paris Prague and England he was also one of the last great Jewish thinkers from Central Europe to experience directly the impact of the Holocaust His intellectual trajectory differed from that of similar thinkers both in producing a highly integrated philosophy of modernity and in combining a respect for nationalism with an appreciation of the power of modern science Gellner was a fierce opponent in private as well as in public of such contemporaries as Michael Oakeshott Isaiah Berlin Charles Taylor Noam Chomsky and Edward Said As this definitive biography shows he was passionate in the defense of reason against every form of relativism a battle that his intellectual inheritors continue to this day **Nation-States**

Neil Davidson, 2016-05-30 In his latest collection of essays Neil Davidson brings his formidable analytical powers to bear on the concept of the capitalist nation state Through probing inquiry Davidson draws out how nationalist ideology and consciousness is used to bind the subordinate classes to the nation while simultaneously using the state as a means of conducting geopolitical competition for capital **Ukraine and Europe**

Giovanna Brogi Bercoff, Marko Pavlyshyn, Serhii Plokhyy, 2017-11-29 Ukraine and Europe challenges the popular perception of Ukraine as a country torn between Europe and the east Twenty two scholars from Europe North America and Australia explore the complexities of Ukraine's relationship with Europe and its role the continent's historical and cultural development Encompassing literary studies history linguistics and art history the essays in this volume illuminate the interethnic interlingual intercultural and international relationships that Ukraine has participated in The volume is divided chronologically into three parts the early modern era the 19th and 20th century and the Soviet post Soviet period Ukraine in Europe offers new and innovative interpretations of historical and cultural moments while establishing a historical perspective for the pro European sentiments that have arisen in Ukraine following the Euromaidan protests All That Glitters is not Gold - The Impact of Frustrated Consumerism on German Reunification

Christin Bimberg, 2009-09-28 Bachelor Thesis from the year 2006 in the subject History of Europe Newer History European Unification grade A Marshall University course History Senior Seminar language English abstract Since the beginning of modern nationhood nationalism has been an important factor in building a nation According to Ernest Gellner nations are the artefact of men's convictions and loyalties and solidarities Nations are thus of big importance for people's identity After World War II the notion of nationalism became a complicated concept for most Germans One reason was that people who were nationalistic were condemned by others because of the horrible things done by the Hitler regime Another complication with post World War II German nationalism was the division of Germany itself Due to that division Germans with the same history and culture were divided by political

boundaries Gellner argues that this harms nationalism immensely Yet most Germans did not see the division as a permanent condition The East German attitude in this matter is especially interesting Despite minor changes in opinion over time the ordinary East German citizen felt that he or she was part of a single German nation Actions taken by the East German government aimed at full independence and even isolation from West Germany However East Germans did not go along with this They expressed their desire for a single German nation in many fields one of them consumer culture The population did not support the official policy of rejecting and ignoring West German and other products but wanted to be able to enjoy the Western lifestyle This frustrated desire combined with the shortcomings of production and supply in the GDR was the final problem that apart from the breakdown of the Soviet Union and the East German economy led to the eventual collapse of the German Democratic Republic
