Eros A Journey Of Multiple Loves:

Eros Serena Anderlini-D'Onofrio, 2014-02-04 *Eros A Journey of Multiple Loves* is a poignant memoir that explores the evolution of erotic love through the international and transcultural journeys of an extraordinary woman. This captivating book chronicles the life of polyamorous advocate and postmodern nomad Serena Anderlini D Onofrio whose skillful prose takes readers along the bold twists and turns of her life and her irreverent critiques of society, education and sexuality. In *Eros* Anderlini D Onofrio describes her formative years in the politically charged Italy of the 1960s and 1970 as well as her development as an independent woman and single mother in America. From her educational beginnings to her love of nudity and freedom from bodily inhibitions, the author reveals her innermost thoughts and shares the wisdom life has blessed her with. She candidly narrates both her journey over the treacherous path from graduate student to educator in California and from a straight and monogamous young adulthood to an alternative and fulfilling lifestyle. An extraordinary read for those who want to expand their horizons, *Eros* is an engaging and honest testimony of a passage into unconventional realms of growth, self-discovery, the erotic and the many possibilities for love. Follow the emergence of this exceptional woman who has made a career of defying convention for the sake of integrity, a woman well worth getting to know. **Gaia and the New**

Politics of Love Serena Anderlini-D'Onofrio, 2010-08-31 WINNER 2010 Nautilus Silver Book Award. *Cosmology* New Science. Gaia theory argues that the flora and fauna of the planet operate in a self-regulating web that keeps the world livable. According to the theory, humankind is the most powerful species in this web and also its biggest threat. This provocative book explores ways to minimize and ultimately eliminate this threat with love and intimacy. Controversial Italian author Serena Anderlini D Onofrio has authored the first global ecology study based on an analysis of human health. Anderlini D Onofrio identifies her remedy within the context of Gaia theory, re-envisioning it as a more inclusive philosophy that positively impacts not only relationships but world ecology under duress. The author links human sexuality to the global ecosystem, claiming that freedom from fear will stimulate a holistic health movement powerful enough to heal relationships and restore planetary balance. *Gaia and the New Politics of Love* is bracing in its range, weaving together issues of human and global health, the relationship of politics, sexuality and ecology, practices and styles of love, the changing roles of eroticism and gender in our lives, and polyamory, bisexuality and the AIDS reappraisal movement. Clarification Statement from the Author: The argument of this book emphasizes the arts of loving as a way to help humanity make peace with our hostess Gaia, the third planet. Some of these arts involve sharing emotional resources and amorous partners. Often the arts of loving require the use of barriers, mechanical protections such as condoms. At times they do not, because only tantric energies are exchanged. The author of this book is persuaded that barriers are recommendable when sexual practices result in the exchange of deep body fluids unless previous fluid bonding arrangements have been made. The author is also persuaded that good practices of holistic health contribute to strengthening the immune systems of those who engage in the arts of loving.

Safety practices are important in making the arts of loving healthy regardless of what factors are involved in the syndromes most prevalent today including AIDS and other conditions in the STD spectrum Historically disagreement has moved knowledge forward Today's science is the result of yesterday's disagreements and controversies The author believes in critical thinking and she respects dissidence in science today including Gaia science reappraisals of AIDS and holistic medicine She hopes her readers will be open to hearing more than one side of a story This statement and the contents of this book do not constitute medical advice in any way Readers are invited to consult their own healers and health care providers

Love: Bondage or Liberation? Deirdre Johnson, 2018-03-26 Much has been written about the function of falling in love in the course of therapy itself This book has a much broader aim The author a Jungian analyst and psychotherapy trainer uses her teaching and clinical experience to illuminate the whole range of this near universal human experience How and why does falling in love affect us so profoundly How can it enhance who we are or must it ultimately fade without lasting value The author argues that the many valuable studies by psychoanalysts relational psychologists anthropologists neuroscientists and philosophers have all made valuable contributions and uses these to highlight and explore the many values and dangers inherent in passionate love However she claims that a more holistic approach is required to show how these various accounts can be seen as complementary rather than competing and can be accommodated within an overarching view of the integration of the human being in its heights and depths

Epistolary Narratives of Love, Gender and Agonistic Politics Maria Tamboukou, 2023-09-30 This book revolves around epistolary narratives of women political theorists and activists following traces of Hannah Arendt's philosophical approaches to love and agonistic politics Arendt's interlocutors are four revolutionary women in the long durée of the nineteenth and twentieth centuries in Europe and the USA the romantic socialist Désirée Vernet Gay the Marxist Rosa Luxemburg the anarchist Emma Goldman and the labour activist Rose Pesotta The book's central argument is that Arendt's philosophical thought can throw light on dangerous liaisons between love gender and agonistic politics further making connections with feminist ruminations around love as an existential force in the ephemeral constitution of the female self in modernity Drawing on extended research with physical digital and published archival collections the book responds to the challenges of the digital turn and highlights the importance of memory work as a way of understanding the lasting effects of the past on the present As such *Epistolary Narratives of Love Gender and Agonistic Politics* will appeal to scholars of sociology and gender studies with interests in research methods particularly archival methods the work of Arendt feminist thought and memory studies

Communities of Difference P. Trifonas, 2005-05-05 This book will look at the implications of educational practices in communities that are differentiated by issues of language culture and technology Trifonas argues that a community is at once a gathering of like minded individuals in solidarity of purpose and conviction and also a gathering that excludes others The chapters in this collection will reveal this tension between theory and practice in order to engage the models of community and the theories of difference that support them as a way to teach to learn and to know *The British National Bibliography* Arthur James Wells, 2007
