Eroticism And Art Oxford History Of Art:

Eroticism and Art Alyce Mahon, 2007 Art Erotica Or Pornography Discussions of what actually constitutes erotic art are incredibly complex and usually highly controversial The naked body in art has been with us since the earliest examples of Greek art and sculpture The creation and display of such works of art has always inflamed opinion and today even without supposed relaxation of the codes of behaviour surrounding nudity such images are considered provocative dangerous and are often unwelcome in the public sphere Now focusing on the last 150 years of western art these debates are finally explored in an imaginative and engaging way using the latest research and analysis into this and related subject areas by a woman

Eroticism in Western Art Edward Lucie-Smith, 1986 **Theorizing Art Cinemas** David Andrews, 2013-11-15 The term art cinema has been applied to many cinematic projects including the film d art movement the postwar avant gardes various Asian new waves the New Hollywood and American indie films but until now no one has actually defined what art cinema is Turning the traditional highbrow notion of art cinema on its head Theorizing Art Cinemas takes a flexible inclusive approach that views art cinema as a predictable way of valuing movies as art movies an activity that has occurred across film history and across film subcultures rather than as a traditional genre in the sense of a distinct set of forms or a closed historical period or movement David Andrews opens with a history of the art cinema super genre from the early days of silent movies to the postwar European invasion that brought Italian Neorealism the French New Wave and the New German Cinema to the forefront and led to the development of auteur theory He then discusses the mechanics of art cinema from art houses film festivals and the academic discipline of film studies to the audiences and distribution systems for art cinema as a whole This wide ranging approach allows Andrews to develop a theory that encompasses both the high and low ends of art cinema in all of its different aspects including world cinema avant garde films experimental films and cult cinema All of these art cinemas according to Andrews share an emphasis on quality authorship and anticommercialism whether the film in question is film festival favorite or a midnight movie *Radical Eroticism* Rachel Middleman, 2018-01-16 In the 1960s the fascination with erotic art generated a wave of exhibitions and critical discussion on sexual freedom visual pleasure and the nude in contemporary art Radical Eroticism examines the importance of women s contributions in fundamentally reconfiguring representations of sexuality across several areas of advanced art performance pop postminimalism and beyond This study shows that erotic art made by women was integral to the profound changes that took place in American art during the sixties from the crumbling of modernist aesthetics and the expanding field of art practice to the emergence of the feminist art movement Artists Carolee Schneemann Martha Edelheit Marjorie Strider Hannah Wilke and Anita Steckel created works that exemplify these innovative approaches to the erotic exploring female sexual subjectivities and destabilizing assumptions about gender Rachel Middleman reveals these artists radical interventions in both aesthetic conventions and social norms **Sexually Explicit Art, Feminist Theory, and Gender in the 1970s** Christian

Licclair, 2022-05-30 Structured around sexual desire as the central analytical category this monograph systematically approaches a heterogeneous array of artworks to purposefully examine the entanglements of art feminist theory gender and sexuality This book considers the potential of sexually explicit art to challenge a socially constructed conception of sexuality as well as gender and explores the sexually explicit as a means to re claim agency for marginalized subjectivities and to emancipate desire from within the patriarchal and heteronormative system In distinct case studies the author focuses on works by four US American artists Robert Mapplethorpe Joan Semmel Betty Tompkins and Tee A Corinne and situates them in relation to contemporaneous debates associated with the insurgent Sexual Liberation Movements of the 1970s The book will be of interest to scholars working in art history visual culture and gender and sexuality studies
