Escape the Global Storm Bob Sullivan, 2008-04 Anyone who has been objectively reading their daily newspapers or watching the evening news has to be wondering what in the world is going on It seems like conditions all around the globe are beginning to spin out of control In fact it is hard to identify a time in history when the world has faced so many complex and potentially devastating problems at the same time In Escape the Global Storm A personal guarantee from the God of Abraham Isaac and Jacob Bob Sullivan uncovers the reasons for the growing chaos that is occurring throughout the world today He takes the reader back four thousand years to the time when God Almighty unveiled His eternal plan for humanity to Abraham He shows just how important that plan is to God and how it is impacting world events today This book will change your view of world events but more importantly it will reveal a glorious future that is waiting for all those who put their trust in Jesus Christ Bob Sullivan grew up in Corning New York He met his wife Shirley in 1966 and was married one year later They currently reside in Connecticut as do their two married children and seven grandchildren Shirley is a life long Christian but it was not until 1976 that Bob committed his life to Jesus Christ He began studying Second Coming prophecy after reading Hal Lindsay's Late Great Planet Earth in the late 70s He has spent hundreds of hours studying Prophecy and has put his knowledge to use by leading several studies on the subject at his home church He has also conducted two day long prophecy conferences and has developed a website that is dedicated to current events in light of Biblical truth www folksinthepews com Magnetosphere-Ionosphere Coupling in the Solar System Charles R. Chappell, Robert W. Schunk, Peter M. Banks, Richard M. Thorne, James L. Burch, 2016-09-28 Over a half century of exploration of the Earth's space environment it has become evident that the interaction between the ionosphere and the magnetosphere plays a dominant role in the evolution and dynamics of magnetospheric plasmas and fields Interestingly it was recently discovered that this same interaction is of fundamental importance at other planets and moons throughout the solar system Based on papers presented at an interdisciplinary AGU Chapman Conference at Yosemite National Park in February 2014 this volume provides an intellectual and visual journey through our exploration and discovery of the paradigm changing role that the ionosphere plays in determining the filling and dynamics of Earth and planetary environments The 2014 Chapman conference marks the 40th anniversary of the initial magnetosphere ionosphere coupling conference at Yosemite in 1974 and thus gives a four decade perspective of the progress of space science research in understanding these fundamental coupling processes Digital video links to an online archive containing both the 1974 and 2014 meetings are presented throughout this volume for use as an historical resource by the international heliophysics and planetary science communities Topics covered in this volume include Ionosphere as a source of magnetospheric plasma Effects of the low energy ionospheric plasma on the stability and creation of the more energetic plasmas The unified global modeling of the ionosphere and magnetosphere at the Earth and other planets New knowledge of these coupled interactions for heliophysicists and planetary scientists with a cross
