Giambattista Vico Thora Ilin Bayer, Donald Phillip Verene, 2009 Giambattista Vico Thora Ilin Bayer, Donald Phillip Verene, 2009 Brings together in one volume translations commentaries and essays that illuminate the background of Giambattista Vico's major work **The Philosophy of Literature** Donald Phillip Verene, 2018-09-12 The Philosophy of Literature Four Studies puts forth the question of the extent to which philosophers must go to school with the poets It begins with a new interpretation of the famous Platonic quarrel with the poetic wisdom of Homer It brings this question forward through the humanism of thinkers of the Italian Renaissance and the German Idealism of Hegel It then treats the relation of philosophy and literature in four ways by considering philosophy as literature philosophy of literature philosophy in literature and philosophy and literature In regard to the first of these it discusses Jorge Luis Borges's The Immortal to the second James Joyce's Finnegans Wake to the third Carl Sandburg's epic prose poem The People Yes and to the fourth Sebastian Brant's Ship of Fools This work demonstrates that in an area of thought often dominated by fashionable doctrines of literary interpretation the great works of literature and philosophy remain as permanent residents of our thought and imagination

Critical International Theory Richard Devetak, 2018-07-04 Whether inspired by the Frankfurt School or Antonio Gramsci the impact of critical theory on the study of international relations has grown considerably since its advent in the early 1980s This book offers the first intellectual history of critical international theory Richard Devetak approaches this history by locating its emergence in the rising prestige of theory and the theoretical persona As theory's prestige rose in the discipline of international relations it opened the way for normative and metatheoretical reconsiderations of the discipline and the world The book traces the lines of intellectual inheritance through the Frankfurt School to the Enlightenment German idealism and historical materialism to reveal the construction of a particular kind of intellectual persona the critical international theorist who has mastered reflexive dialectical forms of social philosophy In addition to the extensive treatment of critical theory's reception and development in international relations the book recovers a rival form of theory that originates outside the usual inheritance of critical international theory in Renaissance humanism and the civil Enlightenment This historical mode of theorising was intended to combat metaphysical encroachments on politics and international relations and to prioritise the mundane demands of civil government over the self-reflective demands of dialectical social philosophies By proposing contextualist intellectual history as a form of critical theory Critical International Theory defends a mode of historical critique that refuses the normative temptations to project present conceptions onto an alien past and to abstract from the offices of civil government **Metaphysics and the Modern World** Donald Phillip Verene, 2016-09-02 Metaphysics and the Modern World makes the abiding questions of the nature of the self world and God available for the modern reader Donald Phillip Verene presents these questions in both their systematic and historical dimensions beginning with Aristotle's claim in his Metaphysics that philosophy begins in wonder The first three chapters concern the origin of

metaphysics as the transformation of the conception of reality in ancient Greek mythology the ontological argument as the basis of Christian metaphysics and the Renaissance cosmology of infinite worlds and the coincidence of contraries The final four chapters present the central issues of the metaphysics of history through the New Science of Vico the principle of true infinity of Hegel's Logic the dialectic of spirit and life in Cassirer's Metaphysics of Symbolic Forms and the conception of actual entities and God in Whitehead's Process and Reality In these discussions the reader will find a lively and learned account of a field of philosophy that is often thought difficult to access but in this work becomes most accessible and a pleasure to read

The Rhetorical Sense of Philosophy Donald Phillip Verene, 2021-07-15 Philosophy and rhetoric are both old enemies and old friends In *The Rhetorical Sense of Philosophy* Donald Phillip Verene sets out to shift our understanding of the relationship between philosophy and rhetoric from that of separation to one of close association He outlines how ancient rhetors focused on the impact of language regardless of truth ancient philosophers utilized language to test truth and ultimately this separation of right reasoning from rhetoric has remained intact throughout history It is time Verene argues to reassess this ancient and misunderstood relationship Verene traces his argument utilizing the writing of ancient and modern authors from Plato and Aristotle to Descartes and Kant he also explores the quarrel between philosophy and poetry as well as the nature of speculative philosophy Verene's argument culminates in a unique analysis of the frontispiece as a rhetorical device in the works of Hobbes Vico and Rousseau Verene bridges the stubborn gap between these two fields arguing that rhetorical speech both brings philosophical speech into existence and allows it to endure and be understood *The Rhetorical Sense of Philosophy* depicts the inevitable intersection between philosophy and rhetoric powerfully illuminating how a rhetorical sense of philosophy is an attitude of mind that does not separate philosophy from its own use of language
