Reading Psalms with the Scribes John Screnock, 2025-11-18 Reading Psalms with the Scribes argues for a new approach to the study of the Hebrew Bible reading with the scribes which puts variation in the ancient witnesses at the center of the endeavor With a focus on texts from Psalms Reading Psalms with the Scribes explores how ancient manuscript evidence can impact scholars thinking about poetics composition and interpretation Whereas most biblical scholarship keeps textual criticism distinct from other kinds of analysis as a preliminary step that provides one correct version of the text to be studied for example the practice of reading with the scribes leverages moments of variation for their insights into the thoughts practices and work of scribes The scribes of the Second Temple period were much more than copyists they were practiced readers who paid close attention to the poetic features of psalms competent editors who polished the existing strengths of psalms talented authors who could add new elements to psalms without altering their compositional unity and skilled interpreters with robust understandings of the text Though current scholarship has extensive knowledge of these ancient texts in all their facets there is much we can learn from the scribes of the Second Temple period When we focus our attention on the places in the text where the scribes were at work and explore the elements of the text involved in that work when we explore some of the paths that scribes have made in the text we can glean methodological insights and consider psalms and other ancient Hebrew texts in new ways

Robot Ecology and the Science Fiction Film J. P. Telotte, 2016-01-22 This book offers the first specific application in film studies of what is generally known as ecology theory shifting attention from history to the in this case media environment It takes the robot as its subject because it has attained a status that resonates not only with some of the key concerns of contemporary culture over the last century but also with the very nature of film While the robot has given us a vehicle for exploring issues of gender race and a variety of forms of otherness and increasingly for asking questions about the very nature and meaning of life this image of an artificial being typically anthropomorphic also invariably implicates the cinema's own and quite fundamental artificing of the human Looking across genres across specific media forms and across closely linked conceptualizations Telotte sketches a context of interwoven influences and meanings The result is that this study of the cinematic robot while mainly focused on science fiction film also incorporates its appearance in for example musicals cartoons television advertising toys and literature
