Roger T. Ames

Focusing The Familiar:

Focusing the Familiar Roger T. Ames, David L. Hall, 2001-08-31 The Zhongyong translated here as Focusing the Familiar has been regarded as a document of enormous wisdom for more than two millennia and is one of Confucianism's most sacred and seminal texts. It achieved truly canonical preeminence when it became one of the Four Books compiled and annotated by the Southern Song dynasty philosopher Zhu Xi 1130-1200. Within the compass of world literature the influence of these books, Analects of Confucius, Great Learning, Zhongyong, and Mencius on the Sinitic world of East Asia has been no less than the Bible and the Qur'an on Western civilization. With this new translation, David Hall and Roger Ames provide a distinctly philosophical interpretation of the Zhongyong, remaining attentive to the semantic and conceptual nuances of the text to account for its central place within classical Chinese literature. They present the text in such a way as to provide Western philosophers and other intellectuals access to a set of interpretations and arguments that offer new insights into issues and concerns common to both Chinese and Western thinkers. In addition to the annotated translation, a glossary of terms gives in concise form important senses of the terms that play a key role in the argument of the Zhongyong. An appendix addresses some of the more technical issues relevant to the understanding of both the history of the text and the history of its English translations. Here the translators introduce readers to the best contemporary textual studies of the Zhongyong and make use of the most recent archaeological discoveries in China to place the work within its own intellectual context. **A**

Sourcebook in Classical Confucian Philosophy Roger T. Ames, 2023-09-01 Roger T. Ames's A Sourcebook in Classical Confucian Philosophy is a companion volume to his Conceptual Lexicon for Classical Confucian Philosophy. It includes texts in the original classical Chinese along with their translations, allowing experts and novices alike to make whatever comparisons they choose. In applying a method of comparative cultural hermeneutics, Ames has tried to let the tradition speak on its own terms. The goal is to encourage readers to move between the translated text and commentary, the philosophical introduction that attempts to sensitize them to the interpretative context, and the companion Lexicon of key philosophical terms, with the expectation that in the fullness of time they will be able to appropriate the original Chinese terminologies themselves. Armed with their own increasingly robust insight into these philosophical terms, readers will be able to carry this nuanced understanding over into their critical reading of other available translations. Ultimately, for students who would understand Chinese philosophy, tian must be understood as tian and dao must be dao. **Photography as a Scientific Implement**
