

Threading the Upper Thread

Make sure that the thread take-up lever and the foot are raised.

- 1 Pull out the spool pin and place the spool on it. Hold it back with the tip of your finger and pass the thread through the passages in the following order (all the thread passages are open, including the thread take-up lever) :
- 2 Upper tension.
- 3 Thread guide.
- 4 Compensating spring.
- 5 Thread take-up lever – Pass the thread through at the rear of the notch in the cover, **from right to left**, passing it behind the thread take-up lever. The thread will slip into the opening of the thread take-up lever.
- 6 Two thread guides.
- 7 Needle clamp. Pull the thread well into the clamp.
- 8 Needle (it is threaded from the front to the back). The white area on the foot support (behind the needle) makes it easy to see the eye of the needle.
- 9 If you use the needle threader, you should thus insert it into the eye of the needle from the back then pass the thread into the threader and pull the latter to the back, out of the eye.
