

Advanced Features of The Tik Tok Clone App

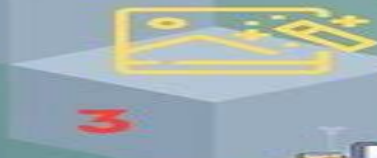

Login and Signup

In order to post the content, the users need to sign up. It must have several options to sign up such as social network, phone number and Gmail login.

Upload Videos

What are the ways to make a TikTok app clone a success? The way to post the videos must be easy and fast. Hence, the sharing options must be considered beforehand.

Effects and Filters

TikTok enables the users to add several effects and filters. Thus, it is very important to incorporate such features in the TikTok clone. In this way, you will be able to attract more users.

Video Editing

The users must be able to edit the video on the application. Some of the basic options like speeding up the video, flipping, etc. There could be an option to turn on the beauty mode. It will make the user's skin more fair and smooth.

Sharing

In order to gain more users, sharing options is a good feature. It allows the users to share their videos on other social media networks. In addition to this, TikTok also connects the profile of the users with other social media networks.

Admin Panel

Multiple functions are provided by the Admin Panel like delete, edit and block users. It also helps to count the posts of a particular user and provides data about new users.

Exciting Features to be Added Later

For launching an app, only the basic features would be enough. More unique features must be added to the application if you want to gain more users. If you begin the development of TikTok app, you may implement the following advanced features of TikTok.

Notifications

It is very essential to give a feature of push notifications. The users need to know the likes, comments and other updates on their videos. Normally, the notifications are implemented by Apple Push Notification Service and Google Cloud Messaging.

Real-Time Analytics

This feature allows the users to see the live broadcasters and viewers on the app. Also, it also helps us to see the count of likes and comments.

Location-Based Content

In this feature, the app shows the content posted by other users in the same location. This is a unique feature that you must keep in mind while developing apps like TikTok.
