Hugh Ross,2009-03-01 The year 2009 marks the 150th anniversary of the publication of Charles Darwin s On the Origin of Species Alongside that event there are many Darwin Day celebrations planned to acknowledge his 200th birthday Add to these the virulent attacks of the New Atheists led by Richard Dawkins Bible believing Christians will be left increasingly challenged with the theory of evolution as the only model to explain the origins and age of the universe In More Than a Theory Hugh Ross founder and president of Reasons To Believe offers discerning readers a comprehensive testable creation model to consider as an alternative This fascinating resource will educate readers with a direct response to the recent and well publicized challenges from aggressive atheists In doing so it also reminds the scientific community of what constitutes good science Furthermore it will supply Christians with the scientific information they need to defend their convictions that the God of the Bible is the Creator Complete with several appendices that put common documents and stories to the same test More Than a Theory is a bold brave and unapologetic work of apologetics that will stir much discussion in both the scientific and religious realms
