even worse than those that lie outside their authors and readers doors In *Scraps of the Untainted Sky* Tom Moylan offers a thorough investigation of the history and aesthetics of dystopia To situate his study Moylan sets out the methodological paradigm that developed within the interdisciplinary fields of science fiction studies and utopian studies as they grow out of the oppositional political culture of the 1960 and 1970s the context that produced the project of cultural studies itself He then presents a thorough account of the textual structure and formal operations of the dystopian text From there he focuses on the new science fictional dystopias that emerged in the context of the economic political and cultural convulsions of the 1980s and 1990s and he examines in detail three of these new critical dystopias Kim Stanley Robinson s *The Gold Coast* Octavia Butler s *The Parable of the Sower* and Marge Piercy s *He She and It* With its detailed documented and yet accessible presentation *Scraps of the Untainted Sky* will be of interest to established scholars as well as students and general readers who are seeking an in depth introduction to this important area of cultural production

Dark Horizons Tom Moylan, Raffaella Baccolini, 2003 *Dark Horizons* presents new essays on the dystopian turn of late twentieth century science fiction Leading scholars discuss major dystopian traditions including cyberpunk and feminist utopian dystopian narratives as seen in works such as Octavia Butler s novel *Xenogenesis* and the film *Fight Club* These essays draw out the ways in which contemporary science fiction literature and film has served as a prophetic vehicle for writers with ethical and political concerns
