Hoppe, Bruce W. Speck, 2005 This issue looks at spirituality in higher education through a number of lenses examining what many view as trend towards incorporating spirituality back into the lives of students faculty and administrators Questions about meaning and purpose are as old as humans and in the earliest days of higher education the search for truth was the ultimate journey of the student Over the decades though the academy has often shunned the

spiritual aspect of a student's education. Whether that is to avoid controversy or to protect from acknowledging that all is not known, there is a predisposition to avoid talking about spirituality in the academy. Regardless, the result is the creation of what T. S. Eliot called hollow men who live in this world but do not know why they are here and thus do not know how to live their lives. This book is responding to a reawakening of desire to avoid such creatures. The issue's purpose, at least in a cursory way, is to look at spirituality in academe through a number of lenses. Composed of chapters from both faculty and administrators, this volume offers insight into the critical need for spirituality in educating the whole student while recognizing that how spirituality is viewed and taught and experienced is intensely personal. The goal is not to prescribe how spirituality should be integrated but to offer multiple options and perspectives. Not only will readers learn about the complex and vital role of spirituality; they will also be reminded that the quest for truth and meaning, not the destination, is what is vitally important in shaping discussions about spirituality. This is the 104th issue of the Jossey Bass quarterly support series *New Directions for Teaching and Learning*.

**The Praeger Handbook of Education and Psychology** Joe L. Kincheloe, Raymond A. Horn, 2007

**Embracing and Enhancing the Margins of Adult Education** Meg Wise, Michelle Glowacki-Dudka, 2004. No rational field of study or practice would choose to occupy organizational or social margins. Or would it? Adult educators increasingly risk and resist being placed at the margins of academic and other organizations. This volume argues that depending on how those margins are defined, margins can be a place of creativity and power from which to examine and challenge dominant ideology and practice. Chapters explore advances and effective practices being made in the margins of adult education from several perspectives, including community-based programs, interreligious learning, human resource development, African American underrepresentation in the academy, and degree-granting adult education programs. Other areas explored include an interdisciplinary Web-based patient education research program and educational focus on citizenship and public responsibility skills. This volume moves beyond the traditional definition of the margin as a power and resource-poor position in which individuals are relegated to supporting roles and demonstrates how to embrace, expand, and blend the margins of adult education by collaborating with others to influence the mainstream. This is the 104th issue of the Jossey Bass quarterly series *New Directions for Adult and Continuing Education*.

**The Spirit of Service** Brian T. Johnson, Carolyn R. O'Grady, 2006-06-15. In *The Spirit of Service*, the contributing authors explore the intersection of faith, service, and social justice in higher education. Reflecting upon the role that higher education plays in preparing future generations of citizens and leaders, this book asserts that spirituality and values necessarily involve one's person and that educators must begin to connect student learning with the human experiences of faith, service, and commitment to social justice. Each of the authors describes a teaching experience in order to critically reflect upon the divide in academic culture between responsible, rigorous intellectual competence and personal values. The authors' lessons in success and failure are meant to provide

guidance for all institutions that are committed to preparing young students to lead lives of leadership and civic engagement  
Divided into three parts this book Explores the meaning practice and implications of religions or spiritually motivated service  
Offers specific examples from faculty for integrating faith or spiritual perspectives with service including what has worked  
and what dilemmas remain Focuses on specific dilemmas and implications for engaging in service for social justice  
Containing a wealth of practical suggestions and strategies The Spirit of Service represents a conversation in progress it is  
an attempt to understand how to help undergraduates integrate service and spirituality for the purpose of social justice
