Exploring Mysticism Frits Staal, 2023-09-01 Until less than a century ago the two prevailing views of dreams as well as of souls were that they are inconsequential the scientific view or of divine origin the religious view In either case it was assumed that they cannot be objects of rational inquiry Similar views still prevail regarding mystical experiences and mysticism in general Modern Western opinion whether friendly or hostile holds that the mystical falls squarely within the domain of the irrational Mr Staal argues that mysticism can be studied rationally and that without such study no theory of mind is complete He exposes the grounds for the belief that mysticism cannot be studied and shows them to be prejudices issuing from a particular historical development While his contention has unflattering implications for the contemporary study of the humanities in general it reveals in particular that existing academic approaches to the study of mysticism even those that appear sound are in fact inadequate This conclusion applies to a variety of dogmatic inquiries and as becomes clear in these pages to philological historical phenomenological sociological physiological and psychological ones as well The illustrations in *Exploring Mysticism* are drawn mainly from Indian forms of mysticism such as Yoga supplemented with Buddhist Taoist Muslim and Christian examples Until less than a century ago the two prevailing views of dreams as well as of souls were that they are inconsequential the scientific view or of divine origin the religious view In either case it was assumed that they cannot be objects of rational

Exploring Lost Dimensions in Christian Mysticism Louise Nelstrop, Simon D. Podmore, 2016-04-15. Mystical theology has developed through a range of meanings from the hidden dimensions of divine significance in the community's interpretation of its scriptures to the much later science of the soul's ascent into communion with God. The thinkers and questions addressed in this book draw us into the heart of a complicated, beautiful and often tantalisingly unfinished conversation continuing over centuries and often brushing allusively into parallel concerns in other religions. Raising fundamental matters of epistemology, representation, metaphysics and divine reality, contributors approach the mystical from postmodern, feminist, sociological and historical perspectives through thinkers such as Meister Eckhart, Thomas Aquinas, Catherine of Siena, Ignatius of Loyola, William James, Evelyn Underhill, Ernst Troeltsch, Rudolf Otto, Jacques Derrida, Jean-Luc Marion and Jean-Louis Chrétien. Medieval and early modern radical prophetic approaches are also explored. This book includes new essays by Sarah Apetrei, Tina Beattie, Raphael Cadenhead, Oliver Davies, Philip Endean, Brian FitzGerald, Ann Loades, George Pattison, Simon D. Podmore, Joel D. S. Rasmussen and Johannes Zachhuber.
