**Men and Mountains Meet** John Keay, 1977 The majestic and sublime Himalayas have long exerted a powerful force on the imaginations of explorers and travelers Indeed as a challenge for these adventurous souls the mountain wilderness that separates the Indian subcontinent from Inner Asia is unique no similar region has ever aroused such intense interest When Men and Mountains Meet a book based largely on out of print and archival material is the first narrative account of the early exploration of this incomparable part of the world The difficulty of exploration was not only natural though the terrain of course is the most formidable on earth but man made as well the Himalayas then as now are strategic and political boundaries of great importance Consequently independent travelers were discouraged from expeditions while official travelers operated behind a dense screen of secrecy Yet despite these obstacles between 1820 and 1875 the Western Himalayas were explored by a number of extraordinary characters In these pages we meet some of the most intrepid explorers of all time the American adventurer Alexander Gardiner Joseph Wolff who earned the sobriquet of mad missionary Thomas Thomson the Scottish naturalist Moorcroft whose exploits have since become legendary in the region and the dogged surveyor Godwin All fully lived up to their magnificent setting and all are once again brought to life in this compelling saga of humankind versus nature **The Great Explorers** Robin Hanbury-Tenison, 2018-10-16 Penetrating biographies written by a
