Allen, 2018-08-03 Present a concise overview of biological anthropology from early foundations to recent innovations Revel™ for Exploring Biological Anthropology: The Essentials combines concise coverage of the foundations of the field with modern innovations and discoveries helping students understand and get excited about the discipline. Because the authors conduct research in three of the main areas of biological anthropology—the human fossil record, Susan Ant n primate behavior and ecology, Craig Stanford and human biology and the brain, John Allen—they offer a specialist approach that engages students and gives them everything they need to master the subject. Revel for the Fourth Edition continues to present traditional physical anthropology within a modern Darwinian framework and includes coverage of contemporary discoveries to highlight the ever-increasing body of knowledge in biological anthropology. Revel is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, Revel is an interactive learning environment that enables students to read, practice, and study in one continuous experience for less than the cost of a traditional textbook. NOTE: This Revel Combo Access pack includes a Revel access code plus a loose leaf print reference delivered by mail to complement your Revel experience. In addition to this access code, you will need a course invite link provided by your instructor to register for and use Revel.
