Media Review Digest C. Edward Wall, 2003 **Music Videos in the Classroom - Young People Exploring the World** Philipp Kock, 2010-10-21 Seminar paper from the year 2009 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1.7 University of Marburg Anglistik course New Media in Foreign Language Teaching language English abstract 1 Introduction Music videos are an important part of the lifestyle of many youths they have been spread over the whole world by the television channel MTV Music Television 1 and they have become an essential aspect of the popular culture Obviously the Hessian curriculum has realized the importance of music videos The topic Young People Exploring the World Jugendliche und ihre Welt for 11th grade includes the sub topic Culture and Media Kultur und Medien 2 This sub topic deals with all sorts of pop culture music videos literature advertisements fashion sports etc Music videos are excellent for matters of foreign language education they provide authentic material³ which is a welcome variation for many pupils who are only used to artificial learning materials and they are very interesting for pupils because they are part of their everyday life Therefore music videos provide a brilliant opportunity for the pupils to discuss and analyse Through thorough analysis of music videos the pupils will become aware of how music videos are made and which impact they can have on us and also which ethical values they propagate as well by the lyrics of the specific song as well by the composition of the video itself or in which ways they reflect our society It is important that the pupils are allowed to choose their own music videos because then they will be more motivated as if the videos were selected by the teacher However the teacher should become acquainted with the specific video before it is presented to the class by the pupil because there are of course music videos which are not suitable for example because the content could be too violent or sexual to be presented in the classroom or the video could be too long it should not exceed 5 minutes for obvious reasons For a fruitful analysis and discussion the pupils need to do a bit of theory the teacher should give a brief introduction to the basics of video making e.g. camera perspectives cutting techniques etc so that the students understand that in a music video just like in a movie everything has a purpose and

a certain effect on the spectator Equipped with this fundamental knowledge the students are enabled to analyse their specific music video on their own and to present them to the class and the rest of the class can discuss or add aspects which the presenter may not have found In this term paper I will present an exemplary teaching unit **Exploring Music** Eunice Boardman, 1969 *Exploring World History* Mark Williams, Lou Ratté, Robert K.
