Selfie Democracy Elizabeth Losh, 2022-09-06 How politicians digital strategies appeal to the same fantasies of digital connection access and participation peddled by Silicon Valley Smartphones and other digital devices seem to give us a direct line to politicians But is interacting with presidential tweets really a manifestation of digital democracy In *Selfie Democracy* Elizabeth Losh examines the unintended consequences of politicians digital strategies from the Obama campaign s pioneering construction of an online community to Trump s Twitter dominance She finds that politicians who use digital media appeal to the same fantasies of digital connection access and participation peddled by Silicon Valley Meanwhile smartphones and social media don t enable participatory democracy so much as they incentivize citizens to perform attention getting acts of political expression Losh explores presidential rhetoric casting digital media as tools of democracy describes the conflation of gender and technology that contributed to Hillary Clinton s defeat in 2016 chronicles the Biden campaign s early digital stumbles in 2020 and recounts the TikTok campaign that may have spoiled a Trump rally She shows that although Obama and Trump may seem diametrically opposed in both style and substance they both used mobile digital media in ways that reshaped the presidency and promised a new kind of digital democracy Obama used data and digital media to connect to citizens without intermediaries Trump followed this strategy to its most extreme conclusion What were the January 6 insurrectionists doing as they livestreamed themselves and their cohorts attacking the Capitol but practicing their own brand of selfie democracy

Compromised Seamus Bruner,2018-08-16 If you ask most Americans what they think about the FBI they would tell you it s far and away the government agency they trust the most The Bureau has for decades sold an image of itself as efficient professional unbiased and untouchable by corruption That portrait is a sham Seamus Bruner and the Government Accountability Institute have spent years cataloging the widespread conflict of interests of the D C political class They have found massive self enrichment and political bias at the highest levels of government including the Justice Department and the FBI Indeed the nation s most important law enforcement agency has become so compromised that every major investigation should face intense scrutiny from the public the media and from Congress James Comey Robert Mueller Andrew McCabe and the rest of the recent FBI leadership should be forced to answer for the way the Bureau has abused the public trust under their watch

The Russia Hoax Gregg Jarrett,2024-03-19 A Fox News legal analyst reveals how persons within the FBI and Justice Department attempted to help Hillary Clinton win the 2016 presidential election On July 5 2016 as James Comey announced that he had cleared Hillary Clinton his FBI was furtively meeting with the author of the fictitious anti Trump dossier funded by Clinton and the Democrats The document together with many other unfounded accusations would be exploited in a malicious attempt to frame Trump for unidentified crimes he did not commit This was the beginning of the Russia hoax As The Russia Hoax details there was never any plausible evidence that Trump or his campaign collaborated with Russia to win the presidency The FBI had no legal basis to initiate its investigation Facts were invented or exaggerated Laws were perverted or ignored The law enforcers became lawbreakers Though a full and true accounting is yet to be divulged Jarrett presents more than sufficient facts to suggest that the investigation of President Trump is a witch hunt With
