Equality Opportunity Marginalized Roma Development:

Being Fair, Faring Better Roberta Gatti, Sandor Karacsony, Kosuke Anan, Celine Ferré, Carmen de Paz Nieves, Valerie Morrica, Carmen de Paz, Abla Safir, 2016-02-05 In Central and Eastern European countries inequalities for Roma families living in marginalized communities start early and are striking Some of these inequalities reflect hard wired family circumstances such as being born in poverty Others reflect lack of opportunities such as limited access to those basic goods and services that are necessary not only for realizing one's potential in life but also for living with dignity Gaps between Roma and non Roma widen over the lifecycle in a way that reinforces and perpetuates disadvantage and translates into significantly unequal outcomes despite the fact that Roma report having similar aspirations to those of their non Roma neighbors Promoting equal opportunities for disadvantaged Roma is not only an imperative for societies that want to call themselves fair but it is also a smart economic choice especially in those countries where populations are aging rapidly Investing early with a particular emphasis on supporting healthy and cognitive development for disadvantaged Roma children is likely to go a long way in promoting fair chances However leveling the playing field in childhood is likely not enough disadvantaged Roma continue being exposed to unequal opportunities at key nodes in their lives such as when pursuing education or when looking for a job Therefore it is as important that a broader set of policies address some of the circumstances in which a large share of Roma children grow up including access to employment and decent living conditions for their families Implementing interventions that help overcome these interrelated barriers will require strong ownership at the national level coordinated policies across different ministries and government levels and an integrated delivery system that is grounded in approaches that are customized to local conditions and implemented in a participatory manner Good practices in Europe and elsewhere show that inclusion of the most disadvantaged including many Roma is possible and the current programming cycle for European Funds represents a unique opportunity to fund such interventions

The fringes of citizenship Julija Sardelic, 2021-07-27 This book presents a socio legal enquiry into the civic marginalisation of Roma in Europe Instead of looking only at Roma's position as migrants an ethnic minority or a socio economically disadvantage group it considers them as European citizens questioning why they are typically used to describe exceptionalities of citizenship in developed liberal democracies rather than as evidence for how problematic the conceptualisation of citizenship is at its core Developing novel theoretical concepts the book investigates a variety of topics including migration and free movement statelessness and school segregation It argues that while Roma are unique as a minority the treatment that marginalises them is not This is demonstrated by comparing their position to that of other marginalised minorities around the globe An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

Positive Youth Development, Mental Health, and Psychological Well-Being in Diverse Youth Nora Wiium, Laura Ferrer-Wreder, Jennifer E. Lansford, Lene Arnett Jensen, 2023-06-15 In this Research Topic our aim is to examine how personal

resources related to competencies skills and self perception as well as environmental contextual and relational features of the social contexts of diverse youth directly or indirectly are important to mental health and psychological well being As previous research on young people has mainly focused on youth s weaknesses rather than their strengths our use of Positive Youth Development PYD in working with culturally diverse youth and their well being in this Research Topic is novel We invite contributions from researchers that were initially presented their papers in a meeting that was held by research partners of the Cross National Project on Positive Youth Development CN PYD and who represent an international and multidisciplinary panel of experts on PYD The CN PYD was initiated in 2014 at the University of Bergen and has an ongoing data collection that involves approximately 10 000 minority and majority youth and emerging adults ages 16 to 29 living in Africa Asia Australia Europe New Zealand and South America CN PYD uses a strengths based approach to the conceptualization of youth as resources and agentic which is in opposition to the view of the developmental period of adolescence as being a period inherently fraught with problems and risks The goal of the cross national project is to assess personal strengths and contextual resources considering how these resources come together to facilitate youth thriving and to document how young people make positive and valued contributions to themselves and others We also advance research on the complex interplay between personal and contextual resources and their connections with risk behaviors and problems in essence taking a perspective of the whole child both in terms of strengths and problems

The Roma in Central and Eastern Europe Andrey Ivanov,2002 Across Central and Eastern Europe many of the region s Roma ethnic populations endure problems of poverty and social exclusion in terms of access to employment opportunities health deprivation such as high levels of infant mortality and poor basic nutrition education and literacy and household income These problems increase dependency on the State creating a vicious circle that further widens the socio economic gap between Roma and majority populations with damaging social and political consequences This report broadens the debate about their marginalisation in Europe by moving the focus from human rights alone to the greater challenge of human development
