The Oxford Handbook of the Ethiopian Economy Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg

regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia Households' Food Insecurity and Coping Strategies in the Face of Vulnerability Mesay Kebede Duguma, 2015 This book draws attention to the livelihood and food security situation of women farmers a topic largely neglected by academic studies It elucidates in a detailed empirical examination the impact of informal social institutions on food security and coping strategies of these households in the Meskan district of southern Ethiopia The area is environmentally and socially challenged The results develop an understanding of the gender dimension of food in security and present important implications for public policy Series Spectrum Berlin Series on Society Economy and Politics in Developing Countries Spektrum Berliner Reihe zu Gesellschaft Wirtschaft und Politik in Entwicklungsländern Vol 110 Subject Sociology African Studies Women s Studies Gender Studies Agricultural Studies **Ethiopian Journal of Education** , 2014 **Agriculture and Rural Development in a Globalizing World** Prabhu Pingali, Gershon Feder, 2017-05-08 Rapid structural transformation and urbanization are transforming agriculture and food production in rural areas across the world This textbook provides a comprehensive review and assessment of the multi faceted nature of agriculture and rural development particularly in the developing world where the greatest challenges occur It is designed around five thematic parts Agricultural Intensification and Technical Change Political Economy of Agricultural Policies Community and Rural Institutions Agriculture Nutrition and Health and Future Relevance of International Institutions Each chapter presents a detailed but accessible review of the literature on the specific topic and discusses the frontiers in research and institutional changes needed as societies adapt to the transformation processes All authors are eminent scholars with international reputations who have been actively engaged in the contemporary debates around agricultural development and rural transformation The short-term impact of COVID-19 on Ethiopia's economy through external sector channels: An economywide multiplier model analysis Aragie, Emerta, Taffesse, Alemayehu Seyoum, Tamru, Seneshaw, 2020-12-09 The COVID 19 pandemic is expected to considerably affect the Ethiopian economy directly and indirectly due to global shocks and to the different restrictive preventative measures the country is taking We analyze these economic effects using multisector economywide income multiplier models built on the two latest Social Accounting Matrices SAMs developed for Ethiopia Three external sector channels are the focus of the analysis commodity exports strategic imports and remittances Results indicate that in the absence of any policy responses the Ethiopian economy is expected to experience a loss of approximately 4.3 to 5.5 percent of its annual GDP due to exports strategic imports and remittances that are one third lower relative to the no COVID situation over a period of six months This translates into estimated reductions in labor income of between 4.2 and 5.2 percent The SAM multiplier model estimates also imply that these negative shocks lead to household income losses that amount to between 3.9 and 6.4 percent In particular the urban poor will be the most affected

as they lose real incomes in the range of 6.6 to 8.5 percent. These income losses are estimated to result in a 3.5 percentage point rise in the national poverty headcount.

Southernizing Sociolinguistics Bassey E. Antia, Sinfree Makoni, 2022-11-10
This innovative collection offers a pan Southern rejoinder to hegemonies of Northern sociolinguistics. It showcases voices from the Global South that substitute alternative and complementary narrations of the link between language and society for canonical renditions of the field. Drawing on Southern epistemologies, the volume critically explores the entangled histories of racial colonialism, capitalism and patriarchy in perpetuating prejudice in and around language as a means of encouraging the conceptualization of alternative epistemological futures for sociolinguistics. The book features work by both established and emerging scholars and is organized around four parts: The politics of the constitution of language and its metalanguage in the Global South; Who gets published in sociolinguistics; Language in the Global South and the social inscription of difference and Learning and the quotidian experience of language in the Global South. This book will be of interest to scholars in sociolinguistics, applied linguistics, critical race and ethnic studies and philosophy of knowledge. Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives (CC BY-NC-ND 4.0) license.

Forced Migration and Humanitarian Action Lorenzo Guadagno, Lisette R. Robles, 2024-10-24
Forced population movements are a defining feature of almost any humanitarian crisis, shaping the design, targeting and delivery of emergency responses. This book investigates how the evolving situation of different forced migrants is accounted for and addressed in humanitarian action in order to improve their access to support and assistance. Bringing together case studies from Africa, Asia, Europe and the Pacific, this book focuses on a diversity of operational modalities and types of assistance provided by both traditional and non-traditional humanitarian actors to address the specific needs of displaced children, women, people with disabilities and older people, as well as trafficked migrant workers. This book adopts a broad perspective on humanitarian action, acknowledging how its boundaries are challenged and expanded in forced migration contexts. Its operational and theoretical insights will be useful for a range of readers from humanitarian and migration researchers and students to practitioners and policymakers.
