Selected readings in public finance, by C.J. Bullock. (Selections and documents in econ.). Selected readings, 1906 **Selected Reading in Public Finance** Charles Jesse Bullock, 1924 **Selected Readings in Public Finance** Charles Jesse Bullock, 1906 *Equality and Non-Discrimination under the European Convention on Human Rights* Oddný Mjöll Arnadóttir, 2021-10-18 The case law of the European Court of Human Rights on discrimination under the Convention is typically considered to be unclear and conflicting Against that background new possibilities for more effective protection against discrimination are opening up through recent developments in the case law on Article 14 and with the advent of the new Protocol 12 to the Convention This study demonstrates that the objective and reasonable justification test and conventional treatment of non discrimination are not apt for dealing with these emerging new possibilities or for explaining the variations in existing case law It therefore suggests a new approach to dealing with protection against discrimination under the Convention developed by focusing on variations in the strictness of objective justification review This study proposes a more viable framework for understanding discrimination analysis under the Convention which includes an alternative interpretation of the burden of proof under Article 14 and a three tiered model of factors that influences the strictness of review **Selected Readings in the Philosophy of Education** Joe Park, 1974 *Reconceptualising European Equality Law* Johanna Croon-Gestefeld, 2017-02-23 This important new book seeks to widen the understanding of the principle of equality within European law Firstly it deconstructs the European Court of Justice s adjudication of cases in the field It then explores how the Member States courts decide on the question of equality This detailed rigorous research allows the author to argue for a reconceptualised equality doctrine Such an adaptation the author argues will provide judges practitioners and academics with the tools to balance institutional considerations against substantive interpretation Theoretically ambitious while grounded in practical application this is a significant restatement of one of the key principles of European law the equality doctrine *Pauline Slave Welfare in Historical Context* W. H. Paul Thompson, 2023-03-20 W H

Paul Thompson engages in an equality analysis of Pauline ethics on slave welfare how slaves should be treated in comparison to free persons He reconstructs a distinctive Jewish numerically equal treatment ethic for slaves and free persons which Paul reorients into a Christocentric framework Cover page 4 *Welfare State Transformations and Inequality in OECD Countries* Melike Wulfgramm,Tonia Bieber,Stephan Leibfried,2017-03-07 This book analyzes how recent welfare state transformations across advanced democracies have shaped social and economic disparities The authors observe a trend from a compensatory paradigm towards supply oriented social policy and investigate how this phenomenon is linked to distributional outcomes How and how much have changes in core social policy fields alleviated or strengthened different dimensions of inequality The authors argue that while the market has been the major cause of increasing net inequalities the trend towards supply orientation in most social policy fields has further contributed to social inequality The authors work from sociological and political science perspectives examining all of the main branches of the welfare state from health education and tax policy to labour market pension and migration policy div Economic Problems; a Book of Selected Readings Fred Rogers Fairchild,1928 **Political Theory and Political Thought** N.
