Eric Wise Laboratory Manual:

Laboratory Manual by Eric Wise to accompany Saladin Human Anatomy Eric Wise, 2019-01-28 This lab manual can be used with Saladin's Human Anatomy text or it can be used independently. The illustrations are labeled therefore students do not need to bring their lecture texts to the lab. The lab manual can be used in either a one term or a full year course. The illustrations are outstanding and the balanced combination of line art and photographs provides effective coverage of the material. The amount of lecture material in the manual is limited so there is little material included that is not part of the laboratory experience.

Anatomy Physiology Revealed APR is an interactive human cadaver fetal pig and cat dissection tool to enhance lecture and lab that students can use anytime anywhere. APR contains all the systems covered in A P and Human Anatomy courses including Body Orientation Cells and Chemistry and Tissues Animations rotatable 3D models dissection histology imaging and quizzing capabilities aid in preparing students for ultimate success. SmartBook 2.0 is the adaptive learning solution that is personalized to individual student needs continually adapting to pinpoint knowledge gaps and focus learning on concepts requiring additional study. For instructors SmartBook 2.0 provides greater control over course content and performance data most importantly students are better prepared so instructors can focus on advanced instruction for a more dynamic class experience. Prep prepares students to thrive in A P by helping solidify knowledge in the key areas of cell biology chemistry study skills and math. Using adaptive technology the program identifies what a student doesn't know and then provides teachable moments designed to mimic the office hour experience. When combined with a personalized learning plan an unprepared or struggling student has all the tools needed to quickly and effectively learn the foundational knowledge and skills necessary to be successful in a college level A P course. Connect Virtual Labs is a fully online lab solution that can be used as an online lab replacement preparation supplement or make up lab to bridge the gap between lab and lecture. These simulations help a student learn the practical and conceptual skills needed then check for understanding and provide feedback. With pre lab and post lab assessment available instructors can customize each assignment. Students are better prepared more efficient and retain more of the fundamental skills necessary for a successful laboratory experience. Practice Atlas for Anatomy Physiology is an interactive tool that pairs images of common anatomical models with stunning cadaver photography allowing students to practice naming structures on both models and human bodies anytime and anywhere. These groundbreaking interactives encourage students to explore key physiological processes and difficult concepts. Students are engaged in state of the art interactives with the ability to visualize and interact with moving parts that simulate important physiologic processes. Students can be assigned these interactives or can practice for self paced learning.
