**Literature and the Body** Anthony Purdy, 2023-11-27      *The Cambridge Companion to Gabriel García Márquez* Philip Swanson, 2010-07-01 Gabriel García Márquez is Latin America's most internationally famous and successful author and a winner of the Nobel Prize. His oeuvre of great modern novels includes *One Hundred Years of Solitude* and *Love in the Time of Cholera*. His name has become closely associated with Magical Realism, a phenomenon that has been immensely influential in world literature. This Companion, first published in 2010, includes new and probing readings of all of García Márquez's works by leading international specialists. His life in Colombia, the context of Latin American history and culture, key themes in his works, and their critical reception are explored in detail. Written for students and readers of García Márquez, the Companion is accessible for non-Spanish speakers and features a chronology and a guide to further reading. This insightful and lively book will provide an invaluable framework for the further study and enjoyment of this major figure in world literature.      **Identity**

**and Translation Trouble** Ivana Hostová, 2017-08-21 Besides providing a thorough overview of advances in the concept of identity in Translation Studies, the book brings together a variety of approaches to identity as seen through the prism of translation. Individual chapters are united by the topic and their predominantly cultural approach, but they also supply dynamic impulses for the reader since their methodologies, level of abstraction, and subject matter differ. The theoretical impulses brought together here include a call for the ecology of translational attention, a proposal of transcultural and farcical translation, and a rethinking of Bourdieu's habitus in terms of František Mikoš's experiential complex. The book also offers first-hand insights into such topics as post-communist translation practices, provides sociological insights into the role politics played during state socialism in the creation of fields of translated fiction, and the way imported fiction was able to subvert the intentions of the state, gives evidence of the struggles of small locales trying to be recognised through their literature, and draws links between local theory and more widely known concepts.      *Antiheroes* Ilan Stavans, 1997
