## **Elegance In Science The Beauty Of Simplicity:**

*Elegance in Science* Ian Glynn, 2013-02-14 The idea of elegance in science is not necessarily a familiar one but it is an important one The use of the term is perhaps most clear cut in mathematics the elegant proof and this is where Ian Glynn begins his exploration Scientists often share a sense of admiration and excitement on hearing of an elegant solution to a problem an elegant theory or an elegant experiment The idea of elegance may seem strange in a field of endeavour that prides itself in its objectivity but only if science is regarded as a dull dry activity of counting and measuring It is of course far more than that and elegance is a fundamental aspect of the beauty and imagination involved in scientific activity Ian Glynn a distinguished scientist selects historical examples from a range of sciences to draw out the principles of science including Kepler's Laws the experiments that demonstrated the nature of heat and the action of nerves and of course the several extraordinary episodes that led to Watson and Crick's discovery of the structure of DNA With a highly readable selection of inspiring episodes highlighting the role of beauty and simplicity in the sciences the book also relates to important philosophical issues of inference and Glynn ends by warning us not to rely on beauty and simplicity alone even the most elegant explanation can be wrong

**Radical Discipleship** Robert P. Vande Kappelle, 2022-08-11 Discipleship is a universal experience all human beings share In our lifetime each of us has had a mentor tutor teacher or role model someone we admired respected and followed As the central character in the Bible the world's best selling book Jesus is known and revered the world over What would it be like to be mentored by such an individual Of course we can follow the accounts of the historical Jesus and his disciples in the gospels but what would it mean to be discipled by a contemporary twenty first century Jesus While people across the world claim to follow Jesus what would it mean to live in the modern world guided by a modern Jesus on religious issues such as faith God and scripture and on social issues such as poverty healthcare social justice political reform and caring for the environment A good place to begin is with compassion for Christianity and compassion are largely linked To be apprenticed to Jesus is to follow one whose profound love for the hungry sick and dying inspired more compassion than any single person movement or force in history Addressing discipleship as a priority in our lives *Radical Discipleship* illustrates its subject with stories and accounts of ordinary Christians living out their discipleship in authentic and inspiring ways Useful for individual or group study this volume serves as a resource for people seeking tools necessary to fulfill Jesus' vision for a more vibrant and equitable world one in which every human being can thrive

**Beyond Belief** Robert P. Vande Kappelle, 2012-09-17 The current age marks the transition from modernity to postmodernity a period as impactful to the Western sensibility as any previous era The role

of religion and the future of Christianity are at stake At this time of transition many thoughtful individuals find themselves at a quandary having reached a critical stage in their spiritual journey Prompted by academia science reason culture and their own experience they feel compelled to choose between the beliefs they inherited as children and the claims of science reason pluralism and secularism Beyond Belief suggests that one need not take an either or approach on these issues there is a better way one that embraces adventure and ambiguity science and religion reason and faith evolution and creation and finds ways to live creatively with realities for which there are no easy explanations Building on a paradigmatic journey of faith that involves three stages precritical critical and postcritical understanding Beyond Belief describes the quest for God and for authentic faith in the twenty first century The key point for this understanding is to replace belief with faith acknowledging that belief in doctrines is not central since they are themselves unprovable This new theological perspective requires rethinking many of our cherished doctrines including our understanding of God Jesus Scripture prayer miracles and revelation
