**Retirement and Its Discontents** Michelle Pannor Silver, 2018-08-07 In the popular imagination retirement promises a well deserved rest idle days spent traveling volunteering pursuing hobbies or just puttering around the house But as the nature of work has changed becoming not just a means of income but a major source of personal identity many accomplished professionals struggle with discontentment in their retirement What are we to do individually and as a culture when work and life experience make conventional retirement a burden rather than a reprieve In *Retirement and Its Discontents* Michelle Pannor Silver considers how we confront the mismatch between idealized and actual retirement She follows doctors CEOs elite athletes professors and homemakers during their transition to retirement as they struggle to recalibrate their sense of purpose and self worth The work ethic and passion that helped these retirees succeed can make giving in to retirement more difficult as they confront newfound leisure time with uncertainty and guilt Drawing on in depth interviews that capture a range of perceptions and common concerns about what it means to be retired Silver emphasizes the significance of creating new retirement strategies that support social connectedness and personal fulfillment while countering ageist stereotypes about productivity and employment A richly detailed and deeply personal exploration of the challenges faced by accomplished retirees *Retirement and Its Discontents* demonstrates the importance of personal identity in forging sustainable social norms around retirement and helps us to rethink some of the new challenges for aging societies
